THE 2015 JEEP® CHEROKEE CONFIDENTLY MOVES YOU FORWARD WITH A UNIQUE EXPRESSION OF SUPREME BEST-IN-CLASS¹ AVAILABLE 4x4 CAPABILITY. THIS RESOURCEFULNESS IS FOUND ON CHEROKEE AND ITS AVAILABLE 4x4 SYSTEMS, EACH ENGINEERED WITH AUTHENTIC JEEP BRAND DNA. CHEROKEE STANDS TALL AS THE ONLY SUV IN ITS CLASS² TO COME EQUIPPED WITH AN AVAILABLE REAR-AXLE DISCONNECT THAT HELPS REDUCE ENERGY LOSS. EFFICIENCIES, GAINED WHEN YOU SWITCH FROM FOUR-WHEEL DRIVE TO TWO-WHEEL DRIVE, AND BACK AGAIN, ARE SEAMLESSLY AUTOMATIC.

No other SUV in its class¹ offers the authentic capability of a 4x4 Cherokee. Choose from three powerful Jeep® 4x4 systems.

JEEP® ACTIVE DRIVE I

A fully automatic, single power transfer unit (PTU) delivers seamless operation in and out of 4WD at any speed. Yaw correction is automatic as well, helping to keep Jeep Cherokee stable at all times. Also it includes brake traction control that works to maintain a balanced torque distribution, helping this system deliver an easy-to-use all-weather boost in capability.

JEEP ACTIVE DRIVE II

A two-speed PTU offers torque management and 4-Low mode. This locks the front and rear driveshafts to deliver additional power at low speeds or for towing your toys. A driveline neutral switch enables you to hitch Cherokee to your RV and take it along for fun. Additionally, off-road adventurers will benefit from a one-inch increase in ride height and an incredible crawl ratio of 56:1 when paired with the 2.4L TigerShark® MultiAir®2 I-4 engine and a ratio of 48:1 when paired with the available 3.2L Pentastar® V6 engine. This allows Cherokee to perform amazing feats of off-road prowess, such as climbing steep hills and crawling over boulders with ease.

TRAIL RATED® JEEP ACTIVE DRIVE LOCK

Includes everything in Jeep Active Drive II, plus a locking rear differential, providing even more capability and strength for severe off-road conditions. Standard on all Jeep Cherokee Trailhawk® models.

AVAILABLE
BEST-IN-CLASS¹ 4x4 CAPABILITY

TRAIL RATED®: A CURRENCY OF CAPABILITY

This species is designed to rise above. Jeep® Cherokee Trailhawk® arrives with best-in-class¹ 4x4 capability, thanks to the standard Jeep Active Drive Lock 4x4 system with a locking rear differential. Trailhawk also includes protective skid plates and signature Red tow hooks – two in the front and one in the rear.

Trailhawk is equipped with Selec-Terrain,[®] the Jeep brand's renowned traction management system that allows the driver to choose from five customized traction modes: Auto, Snow, Sport, Sand/Mud and Rock. Selec-Speed[®] helps safely manage travel on steep inclines or declines. A driveline neutral switch for flat towing is also included.

Every Jeep vehicle bearing a Trail Rated[®] badge is designed and built to “Go Anywhere, Do Anything[®]” and perform with exceptional 4WD capability. It must successfully pass five performance test categories:

TRACTION

Trail Rated traction helps maintain controlled forward motion on snowy back roads and over icy urban bridges, climb steep sand dunes and master muddy two-tracks.

ARTICULATION

When one or more wheels are elevated, the Jeep 4x4 system helps the other wheel(s) maintain ground contact longer to help you move steadily ahead. Suspensions enhance off-road performance by maximizing flexibility, axle articulation and wheel travel.

MANEUVERABILITY

Precision steering and optimized wheelbase allow for expert navigation at all times.

GROUND CLEARANCE

Clear logs, rocks and uneven ground thanks to optimal approach, departure and breakover angles.

WATER FORDING[®]

Additional electrical and body seals, plus a high air-intake location, let you traverse bodies of water up to 20 inches deep[®]

TRAILHAWK® TRAIL RATED® CAPABILITY

APPROACH ANGLE*	29.9°
BREAKOVER ANGLE	22.9°
DEPARTURE ANGLE	32.2°

VALUE

2.4L TIGERSHARK® MULTI-AIR® 2 I-4

When paired with the class-exclusive² 9-speed automatic transmission, this engine has a driving range of up to 490 miles per tank.* This kind of value is rarely found on vehicles as powerfully capable as Cherokee. Acclaimed for its unique and efficient valve-lift system, the TigerShark MultiAir2 I-4 engine incorporates a column of oil flow that helps deliver precise control of intake valve events.

EFFICIENCY

3.2L PENTASTAR® V6 ENGINE

Economies are gained with Stop/Start technology that allows the Pentastar engine to automatically shut off at full stops, then re-engage during take-offs. Transitions are smooth and all but unnoticeable, but the efficiencies gained at the pump will stand out.

CLASS-EXCLUSIVE² 9-SPEED AUTOMATIC TRANSMISSION

EXPERIENCE PERFORMANCE THAT'S BOTH POWERFUL AND REFINED. GEARSHIFTS ARE ALL BUT IMPERCEPTIBLE. CHEROKEE'S 9-SPEED AUTOMATIC TRANSMISSION DELIVERS A RIDE THAT'S EXCEPTIONALLY SMOOTH FOR A MID-SIZE SUV.

It's the bridge uniting refined smooth travel with a welcome, efficient performance. Cross over to the next generation of mid-size SUV travel with Jeep® Cherokee, bearing a class-exclusive² 9-speed automatic transmission. This finely wrought standard feature helps prove that Cherokee was born to dominate its class with a trifecta of strong performance marks in beauty, efficiency and strength.

This Jeep engineered transmission is quickly responsive upon acceleration, with smooth delivery of power that easily transitions between all nine gear ratios. A unique set of four overdrive ratios help gain efficiencies while reducing overall noise, vibration and harshness (NVH) levels. Thus, economies are maximized and performance is optimal at all times. You're instantly attuned to nearly any driving demand, both on- and off-road, and gear changes are nearly imperceptible on every terrain. If you'd rather shift manually, Electronic Range Select with AutoStick function defines the highest gear available, and includes over 40 individual shift maps for specific driving conditions. Standard.

- + Appropriate shift modes on Cherokee's standard 9-speed transmission are determined by intelligent software that monitors engine torque and kick-down, acceleration and road/grade changes.
- + Cherokee's body structure is 65 percent high-strength steel which increases torsional stiffness to help provide a strong, lightweight and solid vehicle architecture.
- + Electronic power steering helps reduce engine load, adding efficiency and nimbleness with a tight 37.6-ft turn circle (FWD model).

Pulling and pushing a full load requires control, especially when you're tackling off-road climbs and hill descents. Just press the Selec-Speed Control button to engage an array of integrated systems that can help your vehicle maintain a target speed of 1 to 5 mph while driving over obstacles and on uphill, level and downhill surfaces. This lets you focus on steering while making sure you safely navigate the road ahead. Standard on Cherokee Trailhawk®

So you can greet the sun from your hilltop home, travel the back roads to town, then head to the city for a special night out. It's a day in the life for a vehicle that adds more life to your every day.

Flip up the floor of the rear cargo area and you'll find three levels (depending on vehicle configuration) of rear cargo under-floor storage systems, each with an integrated storage tray to store valuable treasures. When the entire rear bench is folded, you have a nearly flat surface offering storage space of approximately 54.9 cu ft.

Properly secure all cargo.

- + Deep-tint sunscreen glass helps keep the cabin cool in warmer temps and glare out of your eyes when driving on sunny days. (Available)

PLENTY OF OPTIONS When it comes to carrying a combination of people and cargo, the optional fold-flat front-passenger seat and the 60/40 split on the rear seatbacks can be configured to your liking, allowing you to haul luggage, boxes, golf clubs, ski equipment and so much more.

ADVANCED SAFETY AND SECURITY

There's strength in numbers, and Cherokee is built with plenty of muscle, thanks to over 70 standard and available safety and security features, including:

PARALLEL AND PERPENDICULAR PARK ASSIST⁵

This active guidance system controls steering automatically using ultrasonic sensors that help you ease into parking spots. Includes ParkSense[®] Front and Rear Park Assist⁶ sensors. (Available)

ADAPTIVE CRUISE CONTROL (ACC) WITH STOP AND GO¹³

Take the guesswork out of keeping a safe distance from the car ahead while cruising on the highway. The system automatically adjusts cruising speed to maintain a pre-set distance between you and the vehicle in front of you and can bring Cherokee to a complete stop without driver intervention to help avoid a collision. (Available)

LANESENSE[™] LANE DEPARTURE WARNING (LDW)¹²

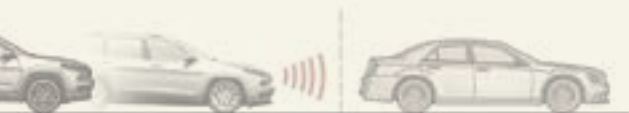

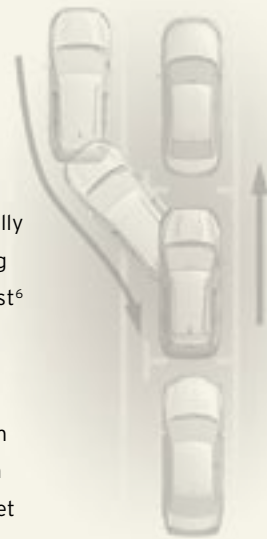

The vehicle lane position is monitored by cameras and, should the driver drift outside of lane boundaries or if the driver's hands are off the wheel, the system provides a visual and audible warning. (Available)

BLIND SPOT MONITORING²¹ AND REAR CROSS-PATH DETECTION⁶

These sentry systems constantly monitor the space between you and other drivers. When a side or rear blind spot is encroached, you're notified via illuminated icons on sideview mirrors or an audible chime. (Available)

FULL-SPEED FORWARD COLLISION WARNING (FCW) WITH CRASH MITIGATION¹¹

Radar sensors detect when Cherokee may be approaching another vehicle too rapidly and send an audible and visual alert to the driver along with providing 1.5 seconds of brake assistance if the driver does not react in time. (Available)

PEACE OF MIND

BEGINS WITH 10 STANDARD AIR BAGS³

Your sense of security is fully met with Cherokee's all-around air bag³ system. Full-length side-curtain driver and front-passenger inflatable knee bolster air bags,³ seat-mounted for front and rear occupants, side thorax and advanced multistage front air bags³ all work in tandem to help provide protection. (Standard)

ELECTRONIC STABILITY CONTROL (ESC)⁹

A vehicle-wide network of safety sensors helps maintain vehicle control, providing instant aid should they detect you're veering off your intended path. ESC⁹ coordinates Electronic Roll Mitigation (ERM), antilock brake system (ABS) and Brake Assist, all-speed traction control and available Trailer Sway Control (TSC)⁹, sending them into action when needed. (Standard)

CHASSIS STRENGTH

Cherokee delivers exceptional peace of mind with a hero's heart – a strong foundation constructed with 65 percent high-strength steel.

RAIN BRAKE SUPPORT

Wet pavement can prove challenging to safe travel. This system automatically helps maintain optimal braking by keeping brake rotors dry in rainy conditions, with assistance from ESC.⁹

ELECTRONIC ROLL MITIGATION (ERM)

As an extension of ESC,⁹ ERM employs ESC⁹ sensors to anticipate potential risk situations. If things get rough, ERM takes immediate action to help you maintain stability and remain under control. (Standard)

TRAILER SWAY CONTROL (TSC)⁹

Crosswinds and traffic hold no sway over you and your payload. As part of ESC,⁹ TSC⁹ helps keep you and the toys you are towing safely on course.

UCONNECT[®] ACCESS⁵ WITH 9-1-1 CALL¹⁵ AND ROADSIDE ASSISTANCE CALL¹⁶

A direct connection to help is right at hand with Uconnect Access,⁵ the next benchmark in emergency vehicle assistance. Two buttons conveniently located on the rearview mirror offer important connections. Press "9-1-1" to reach a 9-1-1 call center,¹⁵ or press "Assist" to quickly summon roadside help.¹⁶ (Available)
