Acadian & 1000

PONTIAC 1000. If you're intent on capturing that exciting Pontiac feeling, but living on a budget, then Pontiac 1000 is the car for you. For 1984, it's got even more style and verve. And still at an appealing low price.

3-DOOR HATCHBACK. Pure driving excitement with an economical kick is the essence of this slick little number. It looks ready for action with a new available sport package that includes racy black sport mirrors, a black rear spoiler, a Formula steering wheel, cast aluminum wheels and a distinctive sport stripe. And Pontiac 1000 backs up that aggressive appearance with a newly available handling suspension (included with optional Y90 sport package). You get a larger front stabilizer bar, a rear stabilizer bar, specific front and rear shock valving and P175/70R13 steel-belted blackwall tires (available at extra cost). All helping to make it one exciting, hot-handling car.

Move inside and you'll find Pontiac 1000 feels as good as it looks. With standard reclining front bucket seats. And cut-pile carpeting throughout.

5-DOOR HATCHBACK. Excitement, practicality and versatility are what make this Pontiac a great value.

It comes with a standard 1.6 liter overhead cam 4-cylinder engine that's both responsive and efficient. Rack and pinion steering. And full coil suspension. A four-speed manual is standard. Or you can choose an available automatic transmission.

DIESEL

ACADIAN Pontiac's most affordable car is just plain fun to drive. And very easy to own. As a weekday car, it's easy to maneuver in traffic. Easy to park, too. As a busy weekend car, it's easy to pack up and ready to go when you are. And easy on your wallet, mile after mile. Acadian's maintenance is designed to be penny-pinching, too. And if you're looking for

even better mileage, look at our thrifty 1.8 Litre Diesel Acadian, with standard 5-speed. Once you've checked how easy and economical it is to own, drive and maintain an Acadian, you'll know why so many have been sold. Acadian offers a lot of comfort, durability and dependability for not a lot of money.

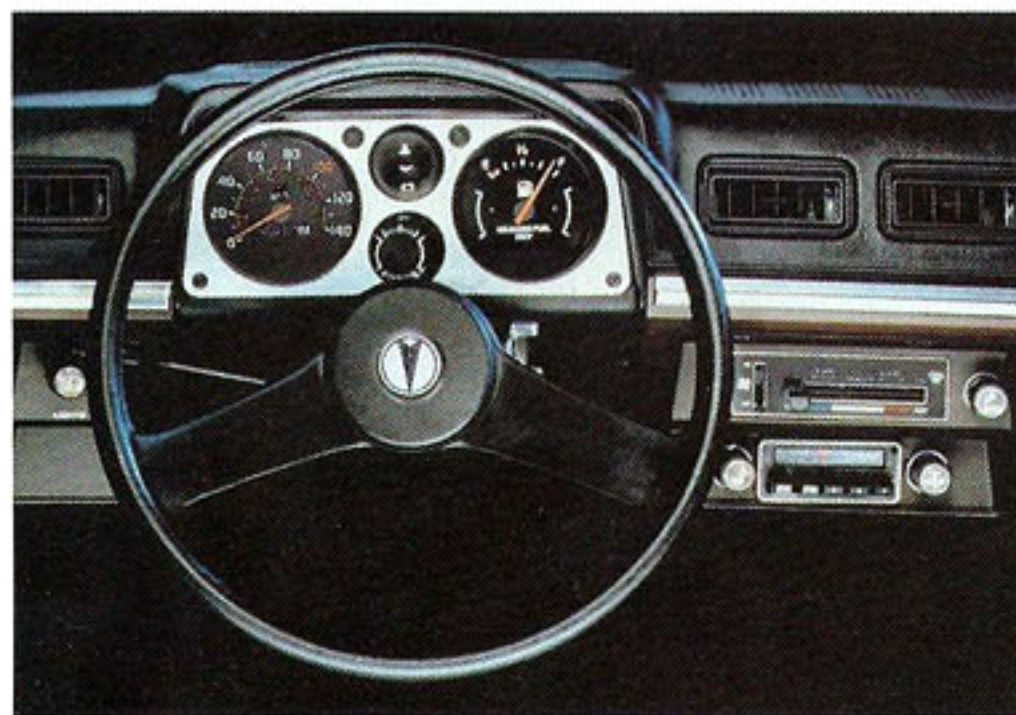

ACADIAN SCOOTER. PROVEN ENGINEERING. LOWEST PRICE.

Count on Acadian's tried-and-true technology to help make it one of the most dependable cars you'll ever own. And count on Acadian's 2-Door Scooter to be the lowest-priced North American-built car you can buy. For work or play, Scooter's the kind of good, basic transportation that

Foam-cushioned, reclining bucket seats are standard.

fits easily into just about any life-style. Acadian's handy hatchback is one reason for its popularity. Pop it open and load up. When even more room is needed, the back seat folds flat to give you 811 litres (28.6 cubic feet) of cargo space in the sedan, 764 litres (27 cubic feet) in the coupe. If you're looking for a car that does everything a car should do, look into the very affordable Acadian Scooter.

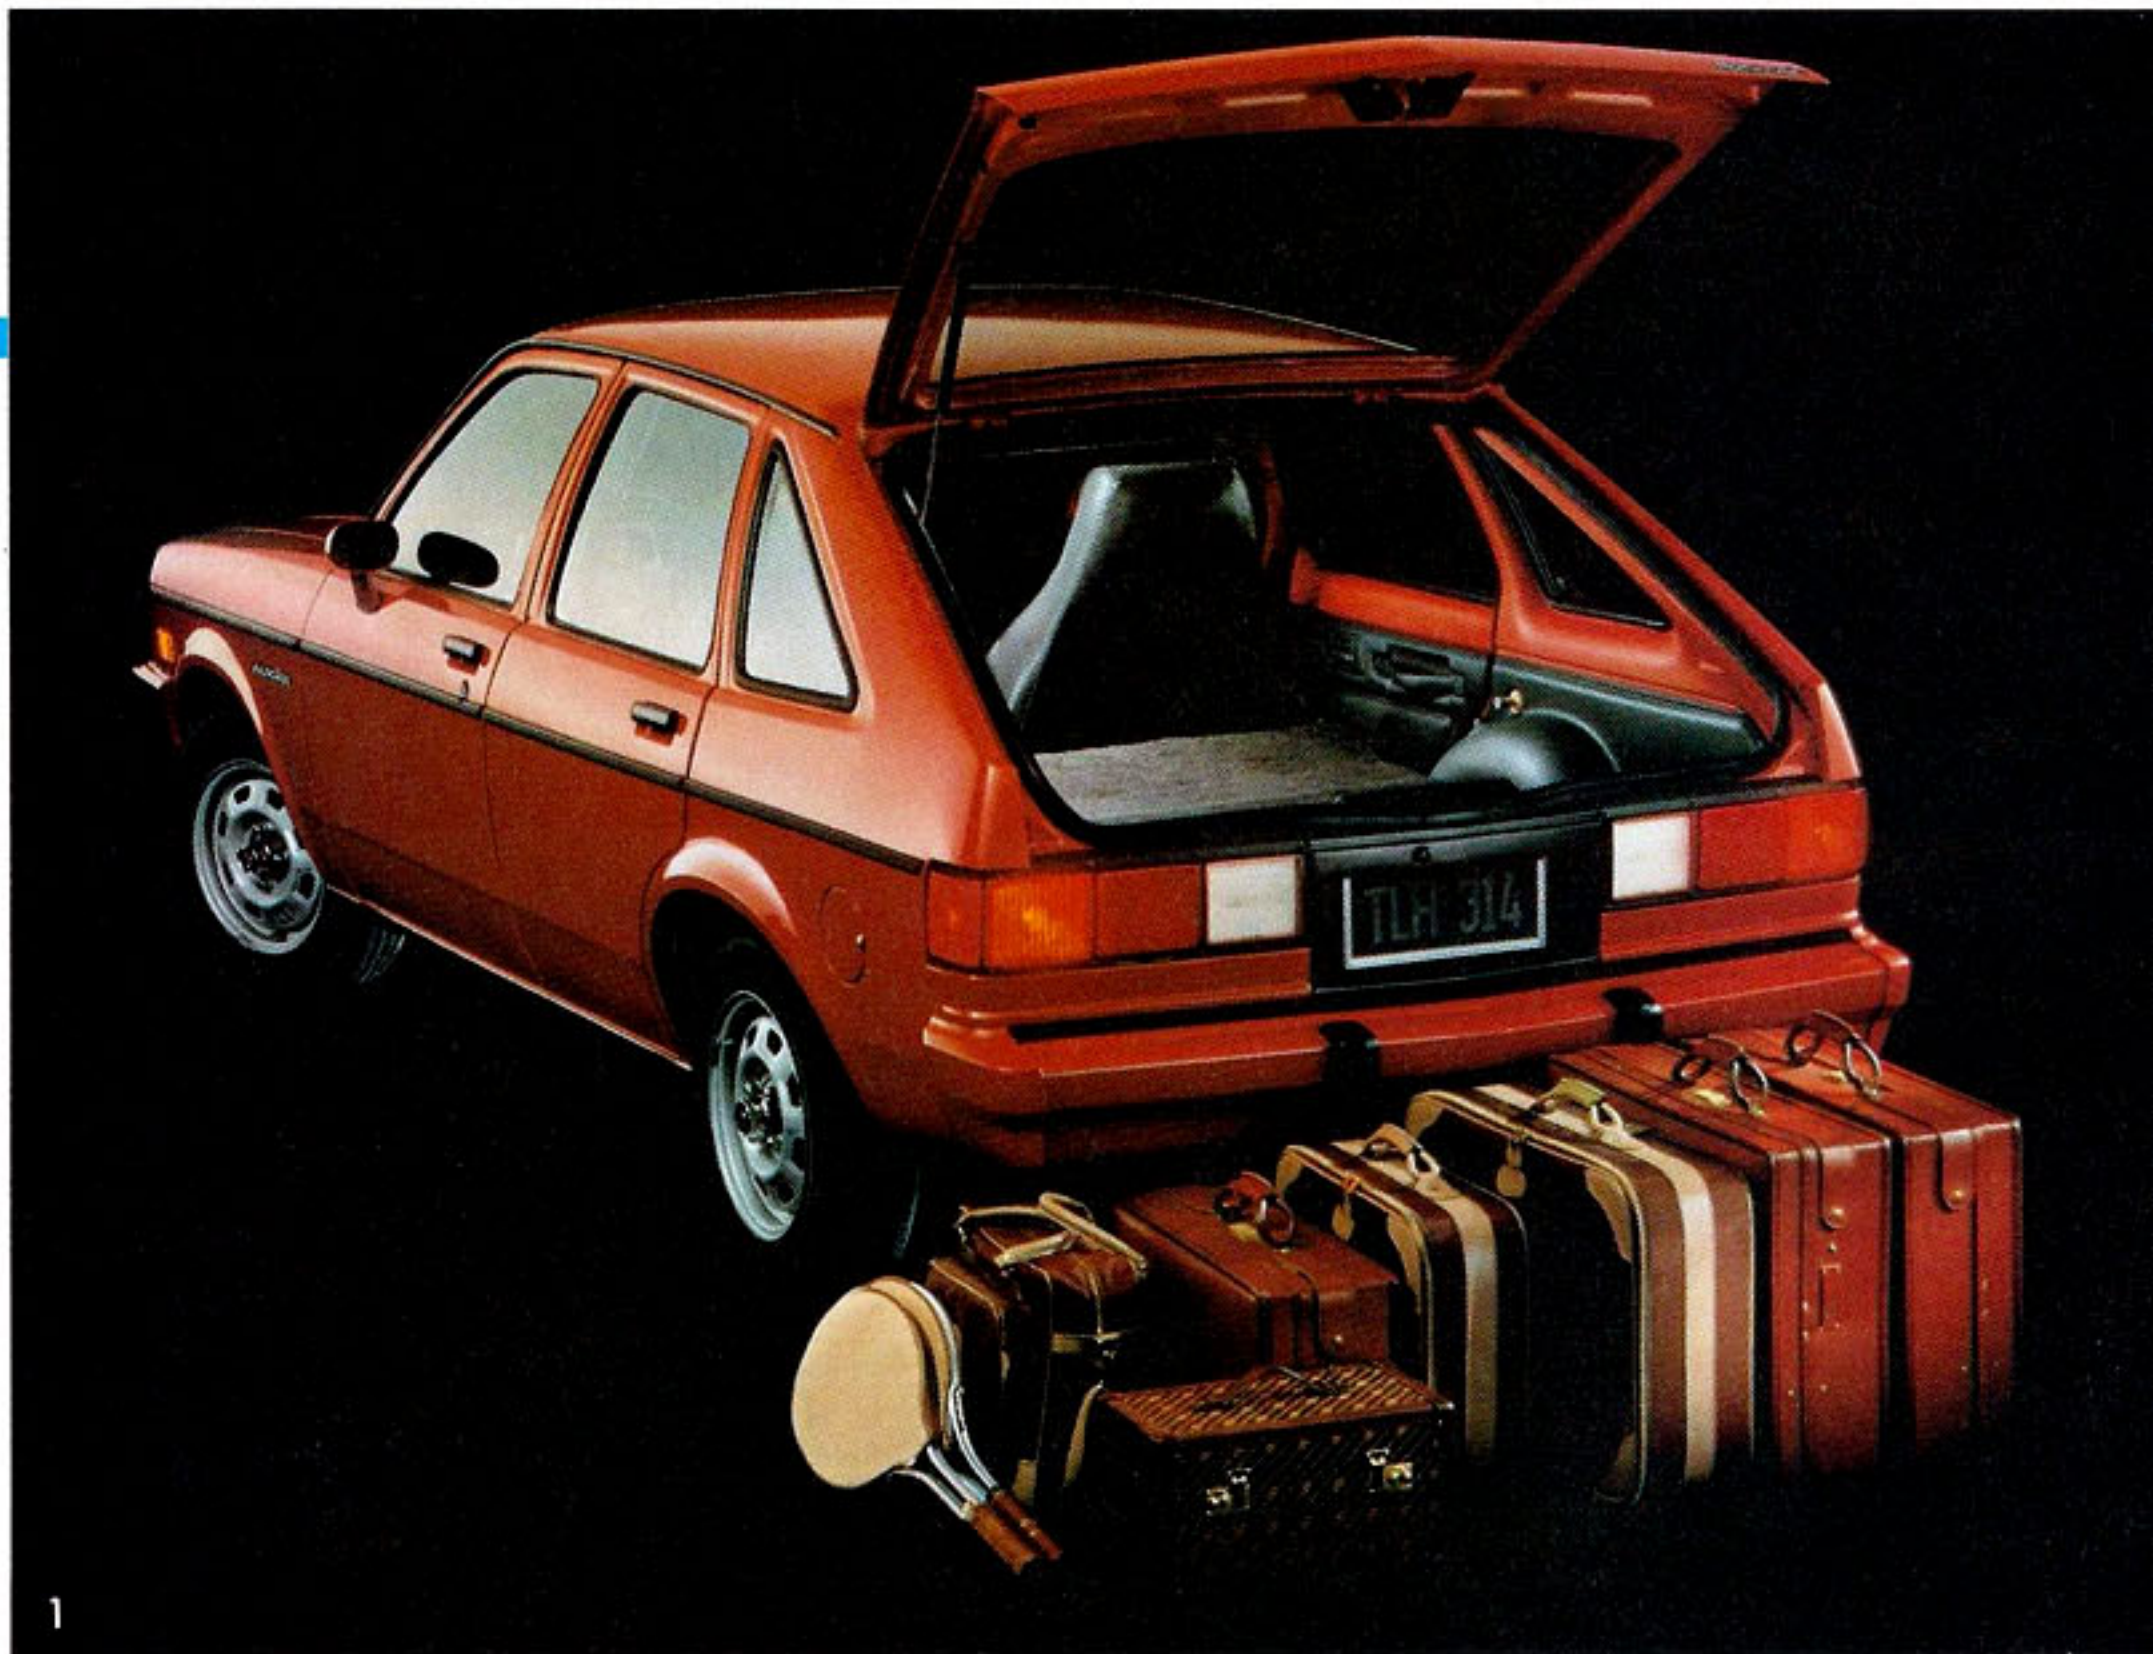

INSIDE COMFORT

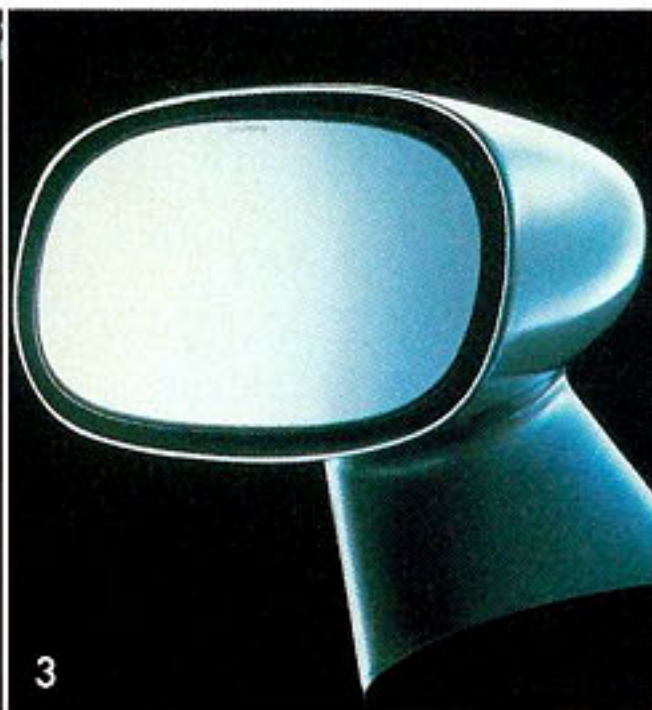

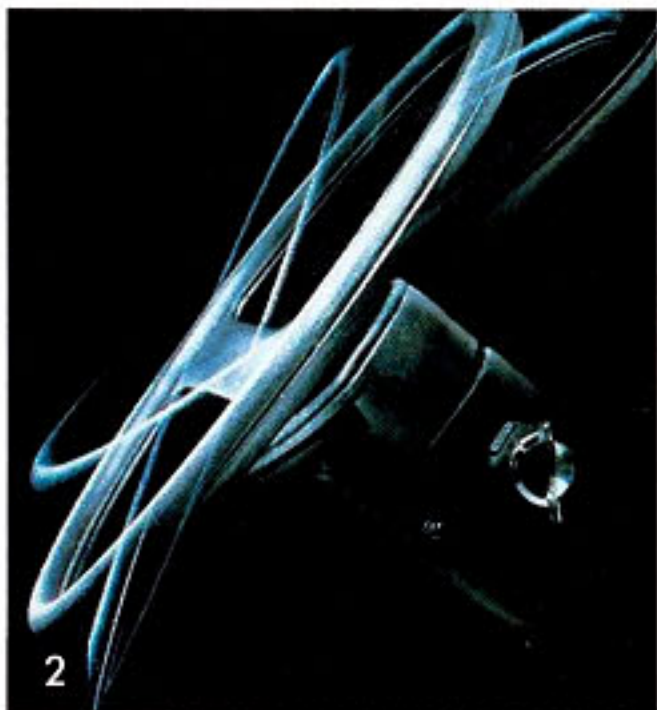

AND VISIBILITY. The room is waiting for you the instant you slide behind the wheel. Comfort and convenience are the top considerations in our spacious-enough-for-four hatchback. You'll notice controls for your driving needs at your fingertips. Touch the column-mounted, multi-function

Acadian's contemporary instrument panel features easy-to-read gauges and easy-to-reach controls. Instruments in Canada are metric where required.

switch to operate the turn signals, the wipers and windshield washers and to dim the headlamps. Even the molded foam and vinyl front bucket seats in the sedan and coupe recline comfortably at the touch of individual levers. And carefully planned glasswork provides a panoramic look at the world. Comfort and visibility. Just two of the reasons why more people have bought so many over the past five years.

1. Need lots of cargo space? You've got it, 811 litres (28.6 cubic feet) to be exact, with the rear seat folded down.
2. Comfortilt steering wheel available all models.
3. Sport Mirrors, with left remote control or paired with a right manual are available on Acadian, Acadian Diesel and Pontiac 1000 models.
4. Aluminum wheels available on Acadian, Acadian Diesel and Pontiac 1000 Coupes and Sedan.
5. A five-speed manual transmission is standard on the Acadian Diesel and available on the Acadian and Pontiac 1000 Coupes and Acadian Scooter.

1984 ACADIAN/PONTIAC 1000 FACTS & FIGURES

Select the combination of "extras" that make your Pontiac uniquely yours from the long list of standard and available features, some of which are given below. Ask your dealer about group packages and the many other features not indicated below. Your dealer will also advise you of the availability of the various items on the model of your choice.

A word about engines

These Pontiacs are equipped with GM-built engines produced by various divisions and affiliates of General Motors Corporation and GM of Canada.

| Order Code | Displacement | Carb. bbl. | Cyl. | V.I.N. | *Source | Transmission |
|------------|---------------------|------------|------|--------|---------|---|
| L17 | 1.6 litre (98 CID) | 2 | 4 | C | (1) | 4-speed Manual 5-speed Manual Automatic |
| LJ5 | 1.8 litre (110 CID) | Diesel | 4 | D | (2) | 5-speed Manual Automatic |

*Produced by GM (1) Chevrolet Division USA (2) Isuzu Japan

†The V.I.N. (Vehicle Identification Number) Engine Code is the eighth entry (letter or numeral) from the left on the vehicle serial number plate. The vehicle serial number plate is located on the top portion of the driver's side of the instrument panel and can be viewed from the exterior of the car by looking through the windshield.

STANDARD FEATURES ON ALL PONTIACS

A word about assembly, components, and optional equipment in these vehicles.

The vehicles described in this brochure are assembled at various Divisions of General Motors Corporation. These vehicles incorporate thousands of different components produced by General Motors of Canada Limited and related companies and their suppliers. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emission and safety requirements or fuel economy guidelines, or for other reasons, to produce vehicles with different components or differently sourced components than initially scheduled. All such components have been approved for use in our products by General Motors of Canada Limited or related companies and will provide the quality performance associated with our name.

Please note that certain optional equipment can be ordered only in conjunction with other optional equipment.

Also, upgrading from specified standard equipment may be necessary when certain optional equipment is ordered. Ask your sales representatives for details.

With respect to extra cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your car is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest you verify that your car includes the optional equipment you ordered or, if there are changes, that they are acceptable to you. These vehicles are also available from Chevrolet dealers under the Chevrolet nameplate (Chevette).

All illustrations and specifications contained in this catalogue are based on the latest product information available at time of publication approval. The right is reserved to make changes at any time, without notice, in prices, colours, materials, equipment, specifications and models, and to discontinue models. Some of the equipment shown or described throughout this catalogue is available at extra cost. Check with your dealer for complete information.
