

## The balance of power.

---

In a class where four cylinders, modest equipment and unassuming looks are all too common, Grand Prix backs up the bad-boy swagger of its WideTrack stance with the power of a standard V6. And with the GXP comes the biggest, most powerful V8 in the class.\* With each model, a balance of interlocking technologies lets you confidently explore the performance driving experience. Officially, your registration will read "sedan," but Grand Prix feels like a four-door, five-passenger sports car.

Grand Prix GXP shown in Liquid Silver Metallic.

\*Based on *Automotive News* 2007 Mid-Range Standard segment and the latest information available at time of printing. Excludes other GM vehicles.
