THE NEW CLASS OF WORLD CLASS

2011 BUICK

LACROSSE

The world never saw it coming. Out of the blue it appeared. Changing everything going forward. Reshaping. Reimagining. Refreshing.

2011 BUICK LACROSSE THE NEW CLASS OF WORLD CLASS

WHERE THE WORLD IS TURNING.

WE INFUSED LACROSSE WITH SOMETHING COMPLETELY NEW. THE SMARTEST THINKING EXECUTED IN THE FRESHEST WAYS EQUALS AN ENLIGHTENED DRIVING EXPERIENCE. REDEFINING THE TERM MODERN LUXURY SEDAN WHEREVER YOU LOOK, TOUCH AND ENGAGE.

ON THE OUTSIDE, ITS LINES ARE SMOOTH AND FLOWING. LEADING FROM ONE SCULPTED CURVE TO THE NEXT—ALMOST BEGGING YOU TO TOUCH IT. YOU'LL FIND THE SAME UNINTERRUPTED, FLOWING LINES INSIDE. LACROSSE ALSO OFFERS ADVANCED PERFORMANCE, ENTERTAINMENT AND NAVIGATION TECHNOLOGY. OPENING DOORS TO NEW EXPERIENCES LIES AT THE VERY SOUL OF THE NEW CLASS OF WORLD CLASS.

YOUR DISCOVERY BEGINS NOW.

ENGINE  
START/STOP

LET'S GET THIS PERFORMANCE STARTED.

The optional push-button start is much more than a modern way to ignite LaCrosse's responsive performance. It represents an appropriate beginning to a journey that unites engine, transmission and suspension in a formidable configuration.

The Buick approach to motion is all about you possessing power as well as the ability to handle it. As you'll discover, once you press Start in the LaCrosse, an elaborate series of technologies begin communicating in anticipation of the driver's shift into Drive. At that very moment, highly sophisticated systems spanning engine, transmission, available all-wheel drive, suspension, handling and safety are sharing data all in preparation to go.

## COLUMBUS WOULD BE PROUD.

Sitting behind the wheel of a Buick means having the knowledge to discover and explore new lands. To help you navigate, the available voice- and touch-screen-activated hard-drive-based NAVIGATION SYSTEM<sup>1</sup> in LaCrosse offers over 6 million miles of North American roads.

To save time, optional XM NAVTRAFFIC<sup>2</sup> incorporates real-time traffic and road conditions right into your Nav screen, directing you around trouble spots and toward the most efficient route. And while you're on the road, your hands don't have to leave the wheel thanks to available BLUETOOTH.<sup>3</sup> LaCrosse lets you pair your Bluetooth-enabled phone with hands-free features to talk, store numbers and receive calls through the audio system. So go forth. There's no telling what you'll discover.

<sup>1</sup>Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada. <sup>2</sup>Required XM Radio and XM NavTraffic monthly subscriptions sold separately by XM after trial period. XM NavTraffic only available in select markets. Certain real-time traffic data provided by NAVTEQ. ©2010 NAVTEQ. For more information, see [xmradio.com/navtraffic](http://xmradio.com/navtraffic). <sup>3</sup>Go to [gm.com/bluetooth](http://gm.com/bluetooth) to find out which Bluetooth phones are compatible with the vehicle.

Voice-activated  
HARD-DRIVE-BASED NAVIGATION

**THE DRIVER WON'T BE THE ONLY ONE ENTERTAINED.**

LaCrosse ensures that half the fun of getting there is the sights and sounds you discover inside. Buick's QUIETTUNING process reduces, blocks and absorbs noise to make LaCrosse an acoustic haven. The laminated windshield, triple door seals, minute body panel tolerances and other acoustical technologies throughout help outside noises stay outside.

So then you can hear the optional Harman Kardon® 5.1 Matrix surround sound system and its 11 speakers pumping out 384 watts of your favorite tunes. Speaking of which, there's an available USB port<sup>1</sup> to sync your iPod®.

LaCrosse also offers an optional hard drive packing 40GB of navigation power and music-storing capacity for thousands of songs.<sup>2</sup> Like your home DVR, you can pause and replay live radio. If you're listening to a game on available XM<sup>3</sup> and your cell phone rings, hit pause, take your call and after hanging up, pick up the action where you left off.

<sup>1</sup>Not compatible with all devices. <sup>2</sup>10GB for music storage, 30GB for navigation storage. <sup>3</sup>XM Radio requires a subscription, sold separately by XM after the first 90 days. XM Radio U.S. service only available in the 48 contiguous United States and the District of Columbia. For more information, visit [gm.xmradio.com](http://gm.xmradio.com).

Harman Kardon

SURROUND SOUND SYSTEM

And to entertain back-seat passengers, the LaCrosse offers integrated dual rear seatback-mounted DVD screens (each one allows for independent video playback or use of an auxiliary device like a gaming console) with available companion wireless headphones.

PERFORMANCE ART.

Is it a highly advanced piece of engine technology or a work of art? Yes.

Being a Buick means performance isn't merely measured in numbers. It's determined by how the driver uses, controls and channels that power. So while the optional 3.6L V-6 uses direct fuel injection and variable valve timing to generate 280 hp and 259 lb-ft of torque, that's not the entire story.

Pair it with an electronically controlled 6-speed automatic transmission, and now you're fully maximizing performance while still delivering remarkable fuel efficiency! The controlled "hands-on" experience comes when you simply move the gear selector to the left for the clutchless manual operation of DRIVER SHIFT CONTROL. A quick tap is all that's needed for smooth, crisp shifts.

You'll also find a technological marvel inside the 2.4L 182-hp ECOTEC four-cylinder engine. Dual overhead cams, variable valve timing and direct fuel injection deliver the optimal balance of low-end torque and high-end horsepower. This ingenious engineering produces enhanced performance and an impressive 19 city/30 hwy mpg<sup>2</sup>

<sup>1</sup>EPA-estimated 17 city/27 hwy mpg. <sup>2</sup>Based on EPA estimates.

280-hp  
3.6L V-6 ENGINE

PUTTING OUR BEST GRIP FORWARD.

Fortunately, we never leave well enough alone—in this case, traditional front suspensions. With all of LaCrosse's horsepower, we created the HiPer (short for High Performance) Strut Front Suspension on the CXS model to handle it.

LaCrosse's chief engineer describes it best: "The most significant attribute of HiPer Strut is what the driver doesn't feel. Torque steer will be minimized (when steering pulls to one side during full acceleration); the normal tugging and vibration felt through the steering wheel on rough roads is significantly reduced. They simply experience a smoother, more controlled and more balanced driving experience."

In other words, it improves grip in dry and wet conditions, as well as the direct feel of the road.

WORD ON THE STREET IS, IT'S ONE SMART SYSTEM.

The intelligent ALL-WHEEL-DRIVE (AWD) system available on the LaCrosse CXL model turns handling into a team sport. It's one of the most advanced all-wheel-drive systems on the road. Combined with an electronic limited-slip differential, AWD helps optimize traction by distributing power to the wheels with the most grip. In low-traction situations, it can send up to 50 percent of engine torque to an individual front wheel and up to 85 percent to either rear wheel (as illustrated at right). Seamlessly integrated with StabiliTrak and traction control, AWD helps handle dry, wet and snowy roads.

SYSTEM SENSES TRACTION LOSS, SENDS POWER TO WHEELS WITH THE MOST GRIP

IN LOW-OR-NO-TRACTION SITUATIONS, POWER IS DISTRIBUTED IN SEARCH OF TRACTION

AWD  
ON-DEMAND SYSTEM

**SEPARATED AT BIRTH.**

Architects. Buick designers. At times like this, it's hard to tell them apart. They both create one-of-a-kind designs that reinvent what has gone before—or in this case, The New Class of World Class. Using the very finest materials, they astound all who visit.

The sweeping lines of LaCrosse never seem to end. Seductive and uninterrupted, they lead you from one curve to the next. This sense of continuity is found throughout LaCrosse. Like how wraparound headlamps flow into the side sweep spears, which merge seamlessly into the LED taillamps. Along the way, they complement Buick's signature chrome portholes and waterfall grille. It's been said by many an admirer, "It takes you places even standing still." And isn't that really the beauty of the world's most striking designs?

SURROUND SOUND FOR THE REST OF YOUR SENSES.

The Buick Design Philosophy of uninterrupted, flowing lines continues inside the sculpted LaCrosse interior. The ice-blue ambient lighting welcomes and calms you. Highly crafted, premium materials like contrasting French-seam stitching, smoked chrome accents and dark poplar wood grain appliques surround you in style.

Ventilated and heated leather-appointed front seats and a heated steering wheel are available for year-round comfort. As is a power rear-window sunshade. And the soft-touch instrument panel with real stitching not only provides a tactile feel, but its "low and away" design gives the cabin a sense of openness.

Ice-blue  
AMBIENT LIGHTING

A FITTING TRIBUTE.

Since Buick has always stood for quality, we consulted the finest minds from around the globe—from engineers in Germany and designers in China to manufacturing experts in the United States—to create a LaCrosse like no other. Producing a modern luxury sedan means considering everything. No matter how small.

Actually, more than 1,000 critical points in LaCrosse have been obsessively scrutinized—resulting in precise craftsmanship. Materials and technology from the inside out were evaluated and chosen with strict tolerances for appearances, durability and ease of use. And with tight interior and exterior surface-to-surface harmony, LaCrosse clearly achieves world-class fit and finish. This results in a superb driving experience today, tomorrow and a very long way down the road.

OUT HERE, PASSING GRADES AREN'T ENOUGH.

On the world's most grueling test tracks, performance and durability are merely theories until you put them to the test. That's exactly what LaCrosse did, over and over again. From computer simulations while still on the drawing board, to thousands of hours and millions of miles spent taking LaCrosse to its breaking point and beyond.

A team of quality-obsessed engineers not only put LaCrosse through its 0-60 and 60-0 performance paces, they also took the smallest components and methodically tortured them. Like pushing all the buttons over a half a million times in temperatures ranging from -40 to 185 degrees. It's the kind of course work you do when excellence is around the next curve.

You'll find six air bags for protection. They include dual-stage frontal and side-impact driver and right-front passenger with Passenger Sensing System, head curtain side-impact and front and rear outboard seating positions.<sup>1</sup> Plus, rear outboard seat-mounted thorax air bags are available.

For enhanced visibility, available XENON High-Intensity Discharge (HID) articulating headlamps turn as you turn. They help you see and respond to approaching obstacles sooner for enhanced nighttime cornering.

The optional HEAD-UP DISPLAY (HUD) allows you to see instrumentation without taking your eyes off the road. And available SIDE BLIND ZONE ALERT uses radar to warn you when another vehicle is in your outside mirror blind spot.<sup>2</sup> You won't find this combination of collision avoidance technologies on Acura TL, Infiniti G37 or even Lexus ES 350.

An available REARVIEW CAMERA SYSTEM can help you see objects while in reverse, so you might say your back is covered, too. Even the available LED turn signal indicators on the side mirrors are designed to provide greater visibility to drivers in the blind spot areas around and behind LaCrosse. Just to be safe.

With OnStar<sup>3</sup> Directions & Connections plan, standard for six months, you've got all the help you'll need. Wherever you travel, Automatic Crash Response can send an alert to OnStar in case of a crash. You can get help fast even if you can't ask for it.

### "WHAT IF" DOESN'T STAND A CHANCE.

Buick's proactive approach to safety provides you with technologies and information to help anticipate situations and conditions rather than just react when they appear. In LaCrosse, safety features abound. Right from the start, LaCrosse was engineered with a Body Frame Integral (BFI) structure that helps protect you and your passengers in impact situations. Strategically positioned high-strength steel helps enable refined ride and handling while creating a protective safety cage for occupant protection.

<sup>1</sup>Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child, or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information. <sup>2</sup>Before making a lane change, always check the Side Blind Zone Alert display, check the side and inside rearview mirrors, look over your shoulder for vehicles and hazards and start the turn signal. <sup>3</sup>Go to [onstar.com](http://onstar.com) for details and system limitations.

ACCESSORIES<sup>1</sup>

from top to bottom:

**CARGO TRAY** Designed to protect LaCrosse's trunk area, its heavy-duty nonskid surface and raised outer lip help contain cargo and spills.

**REAR SPOILER** This one-piece, custom-molded spoiler adds to the already sweeping lines of your LaCrosse. Its integrated attachments and matching body color make for a seamless addition.

**NOISE-CANCELLING HEADPHONES** The ultimate in sound entertainment, these acoustically tuned headphones help reduce road and engine noise while providing a movie- or concert-like listening experience. For use with DVD Entertainment System and for rear-passenger use only.

**REAR SPLASH GUARDS** Designed and engineered custom-molded splash guards fit directly behind your wheels and help protect against tire splashes and mud. Specifically tooled for your vehicle and include styling features to accent the exterior.

**ALL-WEATHER FLOOR MATS** Front and rear premium floor mats, custom-designed to conform to LaCrosse, have deep-patterned grids to collect rain, mud, snow and debris. Nibs on back help hold mats in place.

**19-INCH WHEELS<sup>2</sup>** Accentuate LaCrosse's wide, athletic stance with distinctive painted/polished 5-spoke aluminum wheels.

<sup>1</sup>Available dealer-installed accessories.

<sup>2</sup>Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle's performance characteristics. For important tire and wheel information, go to [gmaccessorieszone.com](http://gmaccessorieszone.com) or see dealer for details.

<sup>3</sup>Additional charge, premium paint.

**IMPORTANT WORDS ABOUT THIS CATALOG.**

Since some information may have been updated since the time of printing (July 2010), please check with your Buick dealer for complete details. Buick reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

**NEW-VEHICLE LIMITED WARRANTY.** This warranty is for GM vehicles registered in the U.S.A. See your Buick dealer for terms and conditions.

A 5-year/100,000-mile (whichever comes first) Transferable Powertrain Limited Warranty plus Roadside Assistance and Courtesy Transportation.

Covered for 4 years/50,000 miles (whichever comes first): The complete vehicle | Cosmetic corrosion resulting from defects | Tires | Repairs made to correct any vehicle defect | Towing to your nearest Buick dealership | No charge for most warranty repairs

Covered for 6 years/100,000 miles (whichever comes first): Rust-through corrosion

**AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES.** Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New-Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

**ASSEMBLY.** Buick vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Buick vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

**ENGINES.** Buick products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Buick products may also be used in other GM makes and models.

**TRAILERING AND OFF-ROAD DRIVING INFORMATION.** Please go to [buick.com](http://buick.com) and carefully review the vehicle Owner's Manual for important safety information about trailering or off-road driving in your vehicle.

**A NOTE ABOUT CHILD SAFETY.** Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information.

**FLEET ORDERS.** Some standard content may be deleted with fleet orders. See dealer for details.

**ENHANCE YOUR OWNERSHIP EXPERIENCE.** The Owner Center at MyGMLink is an online service that helps you make the most of your vehicle ownership.

Sign up for e-mail reminders about service visits | Keep an online history of services performed | Read your vehicle Owner's Manual, warranty and more online | Receive the recall notices that apply only to your vehicle | Watch do-it-yourself videos and much more.
