

2014 HYUNDAI **EQUUS**

TIME MARCHES ON.  
**SHOULDN'T THE LUXURY SEDAN  
OWNERSHIP EXPERIENCE, TOO?**

EQUUS ULTIMATE in Platinum Metallic

It's not enough anymore to engineer a luxury performance sedan filled with state-of-the-art luxury amenities. One guided by advanced safety and information technologies. And wrapped in a body designed to quiet the wind...while leaving onlookers speechless. All of that is just your ticket to the dance.

It's 2014. You have to dig deeper, and think smarter. You have to ask yourself: As the owner of a luxury sedan, what is it I really want?

At Hyundai, we know you want a luxury sedan engineered to do what ordinary cars only dream is possible. But what also intrigues us, as we suspect it does you, is the possibility of an entire car company that's engineered to do more. An entire company that dreams bigger.

We've been creating that car company. Which is why, in acquiring a Hyundai Equus, you'll get more than just a superbly engineered automobile. You'll enjoy a highly personalized experience that begins even before you become an Equus owner. Considering a test-drive? We'll bring an Equus to you at your home, office or wherever you'd like.

Owning an Equus means you may never have to set foot in our service center. Ever. When it's time for service, contact us by phone or through the downloadable Equus Owner Experience iPad® app, and we'll come to you, exchange your car for a Courtesy Replacement Vehicle, then return your Equus when it's ready.<sup>1</sup>

It's 2014. Time for new thinking. And new possibilities.

# TO MOVE FORWARD, GO BACK. **TO THE DRAWING BOARD.**

Attend any of the world's most important auto shows these days, and you'll find Hyundai drawing a crowd. It seems everyone wants a closer look at how Hyundai designers imagine reshaping the future.

Inside and out, the 2014 Equus reflects our belief that an automobile's sheet metal shouldn't punish the wind. Instead, it should glide through it, undisturbed. Our designers went back to the drawing board, intent on evolving the details of Equus from front to rear. They returned with refinements that include a new grille, brilliant Xenon HID headlights with new LED fog lights, reshaped power folding side mirrors, revised LED taillights and new 19" alloy wheels.

Step over the illuminated sill plates into the Equus interior, and you'll find Hyundai designers made significant enhancements there, too. To learn more, inquire within.

EQUUS ULTIMATE in White Satin Pearl

# HOW DO YOU REWRITE **A SYMPHONY?**

A luxury sedan is a mechanical symphony. Thousands of elements come together to create an experience that's powerful. Soothing. Exhilarating. And soulful. One element at a time, Hyundai engineers have made the 2014 Equus – a car already lauded in the automotive press – even finer, with every detail reconsidered until its artistry and functionality crescendo to a new, even higher standard.

In the process, they developed more than 300 test models. With each iteration, Equus was honed into a performance-oriented luxury sedan capable of delighting the most demanding owners.

The smooth delivery of power from a category-defining Tau® V8 engine is optimized by fluid shifting through a state-of-the-art 8-speed SHIFTRONIC® automatic transmission.

For 2014, our engineers also revised the ride and handling, using Hyundai's secret lab – our proving grounds in the harsh extremes of the California high desert – to fine-tune its Electronic Air Suspension with driver-selectable settings. At the press of a button, Equus offers you a firmer, sporty feel of the road. Or, if the road is covered in snow, you can select a drive setting specifically suited for those conditions.

### 429-Horsepower Engine

The torrents of power at your command flow from advanced engine technologies like Dual Continuously Variable Valve Timing and Gasoline Direct Injection. GDI sprays a fine mist of fuel (highly-pressurized at a rate in excess of 2100 PSI) directly into each cylinder of the Tau V8, optimizing both power and fuel efficiency.

### Electronic Air Suspension

The 2014 Equus features a retuned Electronic Air Suspension with automatic ride-height control and Continuous Damping Control. Ride-height control maintains consistent vehicle height and pitch regardless of the number of passengers or load onboard. At high speeds, vehicle height is lowered for improvements in stability, control and fuel economy.

### Continuous Damping Control

Equus minimizes traditional compromises between superior ride and handling finesse by employing computer-controlled damping, which makes millisecond-to-millisecond adjustments to precisely optimize suspension settings during acceleration, braking, cornering and uneven roads. And now, you can even select suspension settings tailored for Performance (sport), Normal (daily drive) and Snow conditions.

# SIGNATURE.

## A SIGN OF INTELLIGENCE.

We named Hyundai's flagship rear-wheel-drive luxury sedan the Equus Signature. After all, a signature represents a very personal connection – and that's precisely the driving experience that awaits you. It's also a way to tell whether something is truly authentic. Equus Signature is certainly that.

It surrounds you with richly grained, beautifully finished wood trim accents. The leather that covers the seating surfaces? It wraps the instrument panel as well – all of it buttery soft to the touch.

For 2014, a redesigned dashboard, instrument panel, center stack, shifter, center console and steering wheel controls enhance the luxury feel and driver interaction even further. Every exchange is as effortless as the rain-sensing wipers with auto-defogging that clear your windshield. A large 9.2" color display in the center dash makes it easy to control everything from high-end audio and climate controls to an advanced navigation system and host of other thoughtful features. A sophisticated voice-recognition system lets you control many of those features using simple voice commands. Proving that intuitive interaction is another Equus signature.

### 17 Speakers, Perfect Hearing

The numbers alone speak to the 598-Watt Lexicon® 7.1 Discrete surround-sound audio system's level of refinement.<sup>1</sup> It uses 17 speakers placed strategically throughout the interior, and its LOGIC 7™ Surround Sound processing creates an aural impression of music that flows around the listener, reinforcing a sense of spaciousness.

### Comfort Zone, Times Three

New for 2014, Equus comes with Three-Zone Automatic Temperature Control. The driver, front passenger and second-row passengers can each set their individual preference for cabin temperature. The system responds by automatically maintaining the desired comfort level for each of these areas.

### Luxury Seating For All

No matter where you sit, Equus Signature offers an exceptional level of tailored comfort. The outboard rear seats are heated and feature power recline. Up front, a 12-way power driver seat and 10-way power passenger seat include heat and cooling functions, plus power lumbar support and two driver memory settings.

<sup>1</sup> Lexicon® is a registered trademark of Harman International Industries, Incorporated.

BlueLink

EQUUS

EQUUS SIGNATURE in Ivory Leather / Ash Wood

# THE ULTIMATE. NO MATTER WHERE YOU'RE SEATED.

When we first introduced our most technologically advanced Equus, we called it Ultimate. It was everything we believed a luxury sedan should be. But technology keeps expanding what's possible, doesn't it?

So, for our 2014 model, we're integrating a host of new features to ensure Equus Ultimate remains deserving of its name. Open any door, settle into your seat, and the first indication of the Equus Ultimate approach to your total comfort is this: As you pull the door towards you, it closes. Automatically.

The rear compartment is enhanced by a new entertainment system. Dual 9.2" high-resolution screens enable backseat passengers to immerse themselves in video and audio entertainment. Lower the power sunshades on the rear side windows and back window. Adjust the power lumbar support, and your seat's heat or cooling settings, to your liking. Then sit back, relax...and enjoy your home theater on wheels.

## Steering Wheel Haptic Dial Control

Technology transforms the driver's view with an all-new dash design centered around a larger, 12.3" color digital LCD Driver Information Display. The steering wheel's haptic dial control pictured here places instrument panel menu choices under your thumb. Choose more impactful screen graphics, adjust the size or height of the windshield's heads-up display, and turn visual alerts like Blind Spot Detection and Lane Departure Warning on or off with the flick of your finger.

## 360-Degree Camera Views

Multiple cameras give the driver a clear picture of what's happening all around Equus Ultimate. A forward-view cornering camera and rear backup camera combine with two new cameras in the side mirrors to capture a 360-degree visual around the entire car. A multi-view monitor lets you toggle between each camera view, making Equus easier to maneuver and more relaxing to command. Isn't that what technology should do in a luxury car?

## New Driver Heads-Up Display

With the new Driver Heads-up Display, vehicle speed, turn-by-turn navigation routes and the status of Smart Cruise Control are all projected onto a windshield screen that's easily visible, day or night. Visual warning icons are also displayed for the Lane Departure Warning System and Blind Spot Detection system. Clearly, the eyes have it.

EQUUS ULTIMATE in Black Leather / Walnut Wood

## TECHNOLOGY THAT PUTS YOU AT EASE. **NOT ON EDGE.**

Technology is wonderful, but only when it's easy to use. To seamlessly integrate the latest digital technologies into its interior, Equus features a new fingertip-controlled Driver Information System. For 2014, a larger 9.2" color information display makes it easier to view the unified controls for systems that include navigation, audio, multimedia DVD player and Bluetooth® phone.<sup>1</sup> Every new Equus comes equipped with available SiriusXM® Satellite Radio, NavTraffic® detailed traffic updates, and XM Data stocks/sports/weather services. There's also 30 GB of solid-state media storage onboard. So no worries: You'll probably run out of your favorite music and movies before Equus runs out of space to store them.

The updated Driver Information System in Equus also lets you access various features and functions using advanced voice recognition. Navigation, mobile phone dialing, address book access, radio and multimedia player – all respond to your voice commands. Don't you wish your whole world worked that way?

## Enhanced Navigation

The 2014 Equus features an advanced navigation system with a larger 9.2" high-resolution display and an enhanced screen map that now includes junction views with lane guidance. Add a Hyundai Blue Link<sup>®</sup> subscription, and you can search for the cheapest gas prices or highest-rated restaurants using voice commands.<sup>2</sup> XM NavTraffic is also close at hand, so routes can be planned and updated using detailed traffic conditions.<sup>3</sup>

## A New Twist On Playlists

Gracenote music recognition and Cover Art make it easy to manage the music you love. Gracenote can identify song titles from broadcast sources and help drivers embellish their playlists. You can also rediscover your playlists in new ways using simple voice commands. Say "More Like This" to create killer playlists by tapping into the current song playing and finding similar songs based on genre, era, origin, or artist type.<sup>5</sup>

## Call The Tune

The Equus audio system lets you choose the source of your musical entertainment: Everything from SiriusXM<sup>®</sup> Satellite Radio and HD Radio<sup>™</sup> to a multimedia player, a playlist on your iPod<sup>®</sup>/MP3 player, or Bluetooth<sup>®</sup> audio streaming via your paired smartphone or tablet.<sup>4</sup>

## A New All-Access Pass

In addition to its smart push-button key fobs, Equus now comes with a second proximity key option: A new credit card-sized smart key with a sleek design void of buttons. Ideal for valet parking, it offers convenient front-row access to the 17-speaker concerts you'll enjoy inside of your car.

# ASSURANCE CONNECTED CARE: NOW MORE THAN EVER, HYUNDAI'S GOT YOUR BACK.

Hyundai made a name for itself by offering assurance that, when you need us, we'll be there. And now, our commitment goes even further with Assurance Connected Care, powered by Blue Link. It's Hyundai's newest way of keeping you assured and secured while you're driving. Assurance Connected Care includes features like Monthly Vehicle Reports that summarize how your Equus is performing. Automatic Collision Notification that pinpoints your location in emergencies.<sup>1</sup> And Maintenance Alerts that offer helpful reminders for things like tune-ups and oil changes.

Technically, convenience and peace-of-mind aren't listed as standard features. But you'd never know it, thanks to our Enhanced Roadside Assistance. Or a Service Link that makes it easy to schedule service appointments, even from your car. Making worry go away – it's a feature you're sure to appreciate in a luxury car. With Assurance Connected Care, it's a standard feature every Equus owner enjoys.<sup>2</sup>

<sup>1</sup> Blue Link agents will contact existing emergency service responders. Only use Blue Link and corresponding devices when it is safe to do so. <sup>2</sup> Assurance Connected Care includes 3 years of the Blue Link Assurance Package. Three-year term starts from the new-vehicle date of first-use and is available for new-vehicle purchases after May 16, 2013 for the duration of the program. See Hyundai.com or your authorized Hyundai dealer for full details. <sup>3</sup> Android is a registered trademark of Google Inc.

# HYUNDAI BLUE LINK: LIFE, MADE EASIER.

Blue Link is Hyundai's advanced technology platform that powers a suite of innovative infotainment, safety and service features. In addition to Assurance Connected Care, Blue Link includes a variety of other enhancements that let you navigate, connect and discover with the push of a button. Or the sound of your voice. For details, please visit [HyundaiBlueLink.com](http://HyundaiBlueLink.com).

EQUUS ULTIMATE in White Satin Pearl

## Like A Universal Remote

Download the Blue Link Mobile App to your smartphone, and you'll have remote access to your vehicle from virtually anywhere. You can remotely lock and unlock your car. Or flash the lights and honk the horn to find it in a crowded parking lot. You can also start your car remotely so the temperature inside is just right by the time you arrive.

## Like A Security Force

You can't keep your eyes on your Hyundai all the time. But we can help. Stolen Vehicle Recovery can locate your Equus in a pinch, while Geo-Fence and Curfew Alerts notify you (by text, automated phone message or email) when the geography or drive-time boundaries you've set are exceeded.

## Like An Expert Guide

More than getting you to your destination, Blue Link offers features that tell you what you'll find when you arrive. Use voice commands to find points of interest, the fastest routes with the least amount of traffic, the lowest-priced gas nearby, the highest-rated restaurants, and more.

EQUUS ULTIMATE in Black Noir Pearl

# PREPARES FOR THE UNTHINKABLE. BY THINKING OF EVERYTHING.

Equus doesn't just pamper. It protects using state-of-the-art technology. One example: A Lane Departure Warning System that uses haptic tugs on the seatbelt to gently warn you if the car starts to drift outside of its lane unintentionally. If no correction is made, an alert sounds. Nine airbags stand ready to deploy in the event of a collision.<sup>1</sup>

A new 360-degree multi-view camera system is now available, with four cameras ideally positioned to offer all-around visibility for easier parking and narrow-street navigation. A forward-view camera also aids in cornering by capturing the road ahead as you turn.

The safety enhancements offered by this 360-degree multi-view camera system are augmented by a Blind Spot Detection System and a Rear Cross-traffic Alert System, which helps when reversing out of parking spots by alerting the driver to oncoming cross traffic. Equus will even assist the driver in applying optimal braking pressure should a panic situation be detected. So this should come as no surprise: The Insurance Institute for Highway Safety rates Equus a 2013 Top Safety Pick.<sup>2</sup>

## Active Safety

Vehicle Stability Management links and optimizes Electronic Stability and Traction Control Systems, Brake Assist, Electronic Brake-force Distribution and a Lane Departure Warning System.<sup>3</sup> Four-piston ABS front calipers grip large brake rotors, which are ventilated to help cool under hard braking for minimal brake fade. So you can remain cool, too.

EQUUS ULTIMATE in Platinum Metallic

### **Smart Cruise Control With Stop/Start**

Equus uses radar to maintain a desired speed and distance from vehicles in front of you, and comes to a full stop automatically when the traffic ahead stops. Smart Cruise Control reengages if the vehicle ahead of you moves forward within 3 seconds.

### **Lane Departure Warning System**

Equus is the first Hyundai to offer an available Lane Departure Warning System, which alerts drivers to unintended lane changes. Audible, visual and haptic warnings are triggered to restore the driver's attention in cases where the car drifts or changes lanes without using a turn signal.

### **Nine Airbag Safety System**

Front, side-impact and side curtain airbags are supplemented by a driver's knee airbag and rear side-impact airbags. Working together with the seatbelt tensioning system and electronic active front headrests, they provide cocoon-like integrated safety.

<sup>1</sup> The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag. <sup>2</sup> IIHS Top Safety Pick: Based on Insurance Institute for Highway Safety 40 mph moderate overlap frontal crash test, 31 mph side-impact test, 20 mph rear-impact test and roof strength testing. Test performed by the Insurance Institute for Highway Safety. For details, visit [www.iihs.org](http://www.iihs.org). <sup>3</sup> Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details. The Traction Control System is meant to enhance conscientious driving habits and is not a substitute for safe driving practices.

# EQUUS SIGNATURE

## KEY STANDARD EQUIPMENT:

- 429 HP, 5.0L Gasoline Direct Injection DOHC Tau® V8 engine with Dual Continuously Variable Valve Timing
- 8-speed automatic transmission with SHIFTRONIC®
- Electro-Hydraulic Power Steering
- Electronically controlled air suspension with Continuous Damping Control
- Proximity fob and card key entry with push-button start
- Three-zone automatic temperature control with Air Quality System
- Leather-wrapped dash and real wood interior trim
- Premium soft-touch leather seats and microfiber suede headliner
- 12-way power adjustable driver seat with lumbar support
- 10-way power adjustable front passenger seat
- Heated and cooled front seats
- Integrated Memory System for driver seat, side mirrors and steering wheel
- Heated leather/wood-trimmed power tilt-and-telescopic steering wheel
- Blue Link® advanced telematics system
- AM/FM/HD Radio®/SiriusXM®/CD/DVD/MP3 audio system
- Lexicon® 7.1 Discrete surround-sound audio system with 17 speakers
- Premium navigation system with 9.2" LCD screen
- Integrated Driver Information System and multimedia controller
- iPod®/USB and MP3 auxiliary input jacks
- Bluetooth® hands-free phone system
- Front and rear parking assistance system with rearview camera and Rear Cross-traffic Alert
- Lane Departure Warning System with Blind Spot Detection
- Smart Cruise Control with stop/start
- Electroluminescent Supervision cluster with 7" LCD screen
- Auto-dimming rearview mirror with HomeLink® and compass

- Power windows with auto-down/up
- Rain-sensing windshield wipers with de-icer
- Auto-defogging windshield with humidity sensor
- Acoustic laminated windshield, front and rear-side windows
- Power tilt-and-slide glass sunroof
- 60/40 power reclining and heated rear seats
- Power rear sunshade
- Illuminated scuff plates, inside door handles and door armrest
- 9-airbag safety system: Advanced dual front airbags, front and rear seat-mounted side-impact airbags, driver knee airbag, and roof-mounted side-curtain airbags
- Vehicle Stability Management with pre-collision warning
- Electronic Stability Control with Traction Control System
- 4-wheel disc Anti-lock Braking System with Brake Assist and Electronic Brake-force Distribution
- Electronic parking brake with automatic vehicle hold
- Electronic active front head restraints with power controls
- Electronic seatbelt pretensioners
- Tire Pressure Monitoring System
- New 19" alloy wheel design
- Xenon High Intensity Discharge automatic headlights with LED turn signal indicators
- Adaptive Front Lighting System with auto-leveling headlights
- LED front fog lights
- Dual power-folding heated auto-dimming side mirrors with integrated turn signal indicators and approach lamps
- Dual asymmetrical exhaust tips integrated into rear bumper
- Premium floor mats and trunk cargo mat
- First-aid kit

# EQUUS ULTIMATE

## EQUUS SIGNATURE STANDARD EQUIPMENT PLUS:

- + Heads-up display
- + Full 12.3" LCD instrument cluster display screen
- + Multi-view camera system
- + Forward-view cornering camera
- + Haptic steering wheel dial control
- + Rear-seat entertainment system with dual 9.2" displays
- + Cooled rear seats

- + Power rear-seat head restraints with manual tilt adjustment
- + Illuminated rear-seat vanity mirrors
- + Power rear side-window sunshades
- + Power trunk lid
- + Power lumbar on rear outboard seats
- + Power door closure
