▲ The standard Lumina APV, shown here in White, has a resilient, rust-proof composite body wrapped around a high strength steel frame.

► Lumina APV's standard 5-passenger interior, shown here in Gray, features a removable center-row bench. Optional 6- and 7-passenger seating plans are available.

The Chevy for families with a real sense of style.

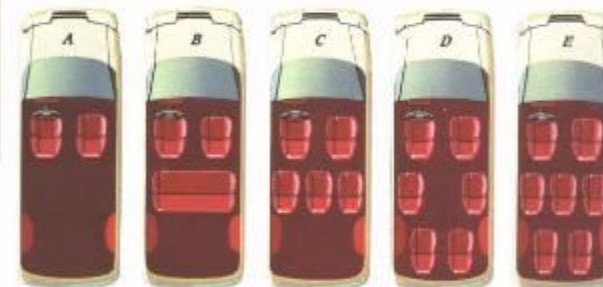

The Lumina APV (All-Purpose Vehicle) was created for people who want especially sporty family transportation—plus a lot of people-carrying and cargo-hauling versatility.

In addition to its avant-garde looks and remarkably car-like ride, this handsome Chevy has the standard equipment to perform with significantly more enthusiasm than traditional front-wheel-drive mini-vans. Namely, a 3.1 Liter (191 Cu. In.) V6 engine with Electronic Fuel Injection, a 3-speed automatic transmission, an aggressive Sport suspension, power steering and power brakes.

▲ Optional luxury-level CL interior in Garnet Red. Lightweight modular seats with quick releases allow 2-, 5- or 7-place seating. (Optional 7-place seating shown.)

▲ Lumina APV with luxury-level CL trim and optional Custom Two-Tone in Sapphire Blue Metallic and Quicksilver Metallic.

A. Two-passenger seating, with standard three-passenger center-row bench (Lumina APV) or three standard modular center-row seats (Lumina APV CL) removed.

B. Standard Lumina APV five-passenger seating, with stationary front bucket seats and removable three-passenger center-row bench.

C. Standard Lumina APV CL five-passenger seating, with stationary front bucket seats and three modular (individually removable) center-row seats.

D. Optional Lumina APV six-passenger seating, with two center-row and two back-row modular seats.

E. Optional Lumina APV and Lumina APV CL seven-passenger seating, with three center-row and two back-row modular seats.

Inside, Lumina APV offers family-size room, a standard stereophonic sound system, body-embracing, reclining front bucket seats and **Scotchgard™** Fabric Protector on seats and door panels.

The up-level CL (Custom Luxury) optional trim is shown above right. It includes sufficient enrichments to make the Lumina APV CL very special, indeed. In addition to exterior embellishments, CL interior touches include plush cloth trim on seats and door panels, air conditioning, an auxiliary lighting group and a Comfortilt steering wheel.

▲ Astro CS in Ivory White.

▶ Standard Astro vinyl interior in Blue.

Standard Astro attractions—and the step up to Custom Luxury.

The standard Astro CS stands very tall among mid-size vans. It boasts the largest engine (a 4.3 Liter [262 cu. in.] Vortec V6) and, when properly equipped, one of the greatest towing capacities (three tons—that's 6000 lbs.—including people, cargo and trailer). It also has a standard four-wheel anti-lock brake system (ABS).

With optional seating, Astro CS accommodates up to eight people, and the Extended-Body Astro model offers up to 170.4 cu. ft. of cargo space (with center- and rear-row seats

▲ Astro CL Custom Cloth interior in Garnet Red.

◀ All-Wheel-Drive Extended-Body Astro with optional CL trim, and optional Custom Two-Tone in Deep Red Metallic and Burnt Red Metallic.

removed). That's a space equivalent to a box 4 feet high, 5 feet wide and 8 feet long. Standard comforts include: high-back front bucket seats with soft, durable vinyl trim; a matching center-row 3-passenger bench seat; and wall-to-wall color-keyed carpeting. An optional third-row bench seat expands the Astro's seating capacity to eight.

The optional Astro CL (Custom Luxury) trim is the right decision for those who want a supercapable van with an extra measure of styling and comfort features. Astro CL

embellishments include Rally Wheels, an air dam with fog lamps, swing-out rear door glass, and your choice of Custom Vinyl or Custom Cloth seats.

The Astro CL shown is an All-Wheel-Drive Extended-Body model with 10 inches more depth in cargo space behind the third-row bench seat than a Regular-Body Astro. The Extended-Body Astro allows you to load up to 41.3 cu. ft. of everyday cargo or vacation gear behind the third-row optional bench seat.

The top-of-the-line Luxury Touring Astro.

Obviously, Astro LT (Luxury Touring) is for those people who can only be happy with the maximum in a mid-size van.

The distinction begins on the outside, where the optional Astro LT top-level trim allows you a choice of unique solid colors and Two-Tone paints with color-keyed decal striping, plus deep-tinted glass, and a set of color-coordinated Rally Wheels.

Inside, luxury touches found only in the Astro LT include wide, contoured, aircraft-style front bucket seats that recline and have plush velour upholstery. Astro LT is further distinguished by reclining seat-backs for its standard middle and optional rear seating units, both of which also feature middle-passenger seat-backs that fold down to create snack trays with convenient cup pockets.

- ▲ *Extended-Body Astro interior with optional LT trim in Gray.*
- ◆ *All-Wheel-Drive Extended-Body Astro with optional LT trim, including Special Two-Tone in Fieldstone Gray Metallic and Slate Metallic. Shown with optional aluminum wheels.*

▲ *Extended-Body Astro with new for '91 optional Sport package and optional Custom Two-Tone in Sterling Silver Metallic and Onyx Black.*

► *Astro with optional Sport package and optional Custom Two-Tone paint, shown in Ivory White and Onyx Black. Optional aluminum wheels also shown.*

The custom van without the custom price.

The optional Sport package definitely gives the Chevy Astro a custom look and feel.

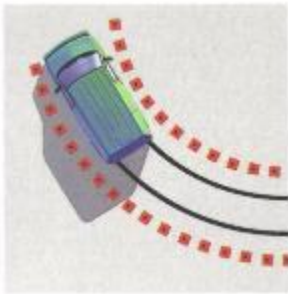

Body accents include: a "bandit mask" decal with red accent striping around the windshield and side windows; a black grille with red accent striping and a red Chevy bowtie; louvered rear-quarter body panels (except on Extended-Body Astros, which have rear quarter windows instead); wide black body-side moldings with red accent; color-keyed bumpers; and an air dam with integrated fog lamps.

The package also includes a Sport steering wheel and Sport suspension (with Rally Wheels and fat P245/60R-15 white-outline-lettered tires) which make Astro Sport especially fun to drive.

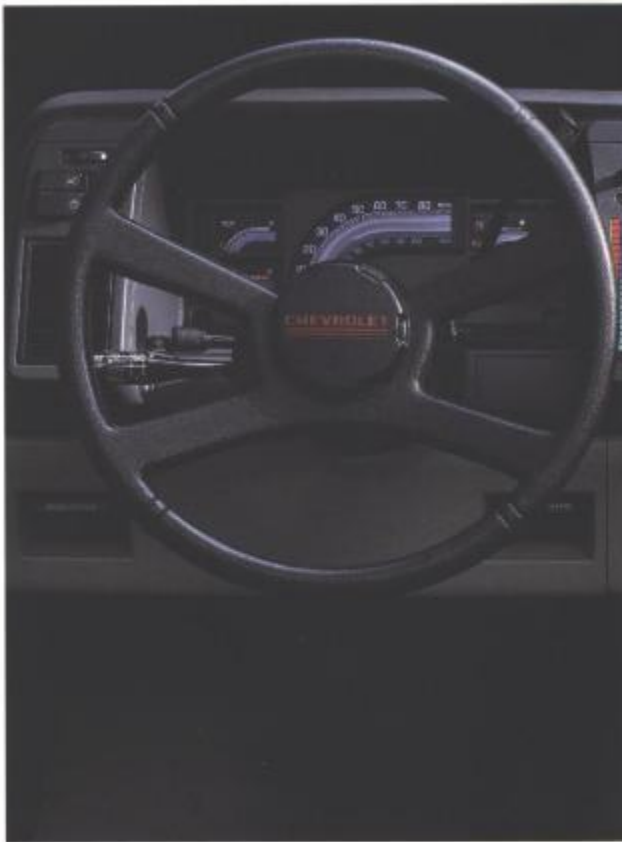

Solid exterior colors to choose from are Smoke Blue Metallic, Sunset Gold Metallic, Deep Red Metallic, Sterling Silver Metallic and Ivory White. The Sport package may also be ordered with optional Custom Two-Tone paint, with Onyx Black as the secondary color. The Sport package is not available with LT trim.

▲ The AWD system in All-Wheel-Drive Astro models automatically improves traction under normal driving conditions by splitting the torque from the engine and sending 35% to the front wheels and 65% to the rear wheels. This torque ratio also maintains Astro's rear-drive "feel." The AWD system automatically varies the front-to-rear torque ratio to help maintain traction on a variety of driving surfaces, including wet hardtop and gravel roads.

▲ Astro's standard four-wheel anti-lock brake system (ABS) automatically controls pressure to the power brakes to minimize wheel lockup, whether the driver is braking on a straight, hardtop road or on a curve in the road. In addition to improving vehicle stability during braking, ABS also helps maintain the driver's ability to steer around obstacles, even during hard braking.

▲ A new-for-'91 optional storage compartment conveniently located underneath the front-passenger bucket seat provides additional storage space.

▲ Astro LT instrument panel with easy-to-read graphics, gage package, trip odometer and Luxury Sport steering wheel. Shown with optional electronic instrumentation and AM/FM stereo radio with seek and scan, cassette tape player and digital clock, plus other options.

A. Standard seating for five.
B. Optional seating for seven.
C. Optional seating for eight.

▲ Astro has exceptional versatility for people-carrying and cargo-hauling. The possible combinations range from eight people and 22.7 cu. ft. of cargo (in a Regular-Body Astro) to two people and 170.4 cu. ft. of cargo (in an Extended-Body model). Quick-release levers on all center-row and rear-row bench seats make easy work of removing seats for additional cargo space, whenever it's needed.

A few of Astro's more important design and engineering pluses.

As high as Astro scores in the styling, towing, hauling and people-moving departments, it would still fall short of Chevy standards if it didn't reflect good thinking right down to the smallest detail. Astro does.

Its instrument panel, for instance, was designed to provide logically patterned controls within easy reach of the driver. Every Astro Passenger Van also has a standard

four-wheel anti-lock brake system (ABS) that improves vehicle stability while braking. And Astro All-Wheel-Drive models, in addition to ABS, feature a system that splits the engine torque between Astro's front and rear wheels for greatly enhanced traction.

In a word, the more you look at the '91 Chevy Astro, the more you find to like.

Electronic Speed Control/Comfortilt Steering Wheel	—	ZQ3	ZQ3

¹ Maximum gross trailer weight includes all passengers and cargo in the Astro, plus any cargo in the trailer. If you order more than the minimum required equipment or carry more than two passengers, the additional weight must be subtracted from the maximum gross trailer weight. NOTE: Model and driveline combinations must be verified by your local dealer for correct maximum equipment.

TRAILERING SPECIAL PACKAGES

If you intend to tow a light trailer (up to 2000 lbs. gross weight) with your new Astro, a Light-Duty Trailering Special Package (Regular Production Option Z72) is highly recommended. RPO Z72 includes a deadweight hitch which is bolted to the Astro's rear bumper and includes a 1-7/8"-diameter hitch ball. This package also includes a light-duty 5-wire wiring harness with male-female connector and pigtail that must be spliced into the trailer wiring harness. This allows Astro's electrical system to activate your trailer lights and other electrical systems.

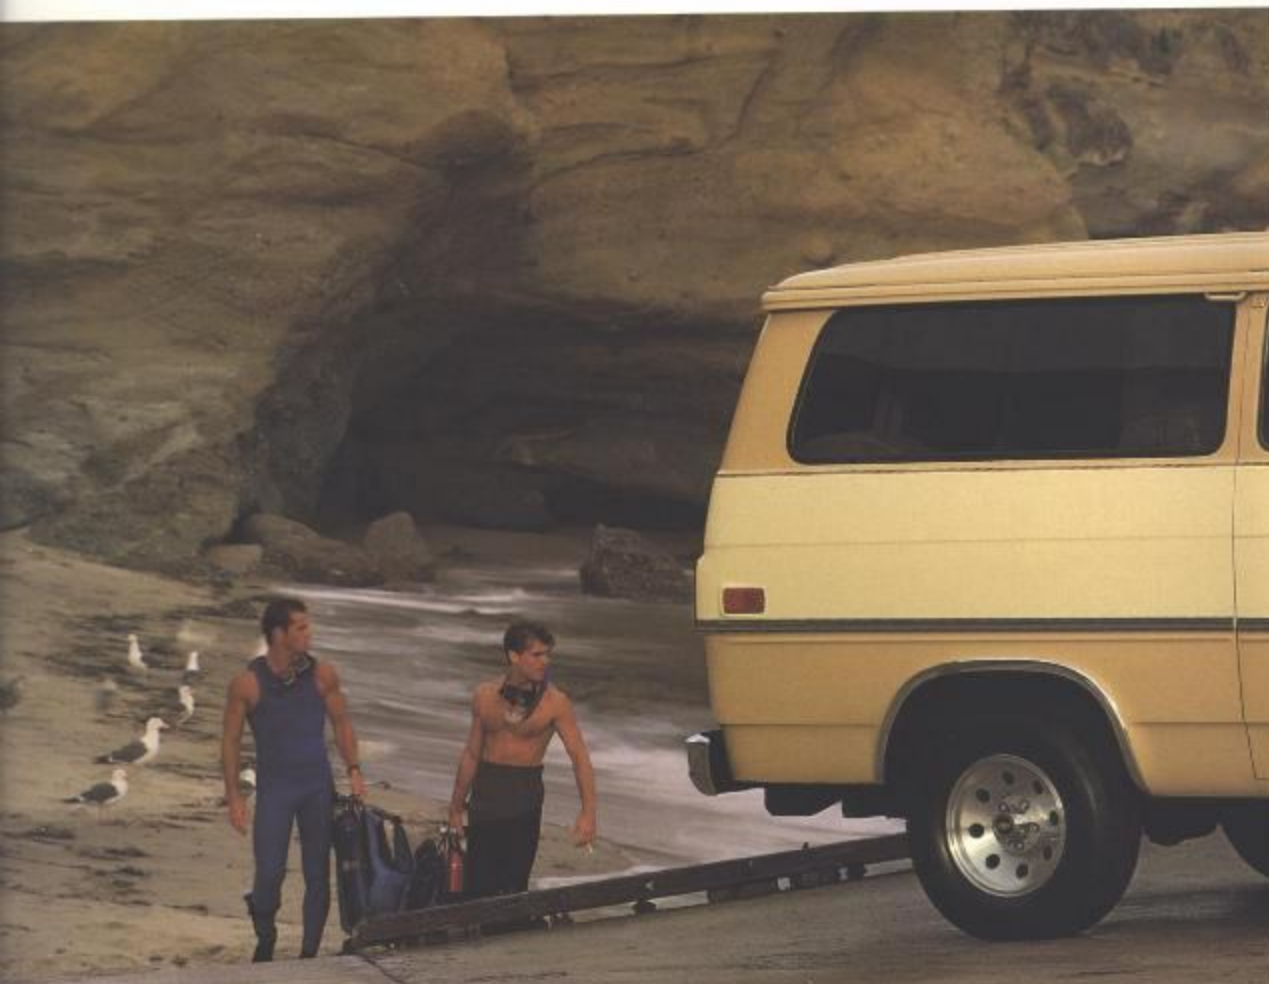

If you intend to tow a medium trailer (up to 4000 lbs. gross weight) or a heavy trailer (up to 6000 lbs. gross weight), a Heavy-Duty Trailering Special Package—RPO Z82—is a required option. (This RPO Z82 is also required, regardless of gross trailer weight, if your trailer tongue

weight exceeds 400 lbs.) RPO Z82 includes: a weight-distributing platform hitch receiver which is bolted to Astro's undercarriage; an engine oil cooler; a transmission oil cooler; and a 7-wire wiring harness.

With either trailering package, the wiring harness comes coiled and tied, and stored on the floor in the right-hand rear-corner compartment of the Astro.

See the chart above for weight limits, axle ratios and trailering options. To help you in ordering, Regular Production Option (RPO) numbers are listed.

If you prefer to use Gross Combination Weight Ratings (GCWRs) to determine the engine, transmission and rear axle ratio you will require for towing, see the GCWR chart on page 69. Other important trailering information is available in the Owner's Manual of every 1991 Chevy truck.

▶ Sportvan standard interior in Saddle with vinyl seats, cloth door trim and full headliner.

▼ G30 Sportvan in Frost White with optional (no extra cost) sliding side door. (60/40 swing-out side doors are standard.)

Your choice of anything-but-plain or remarkably fancy.

As either a Regular-Body or Extended-Body model, the standard Sportvan has so much to offer, it may fill the bill for all but the most discriminating full-size van buyer.

It's a big, rear-wheel-drive vehicle with a great capacity for transporting people and their belongings, plus a great capacity for towing. With the standard 5.7 Liter (350 Cu. In.) V8, a properly equipped, Regular-Body G30 Sportvan can move up to 13,500 lbs., including vehicle, trailer, people, equipment and cargo. Make that 16,000 lbs. for a properly equipped G30 with available 7.4 Liter (454 Cu. In.) V8. Sportvan also features a rear-wheel anti-lock brake system that minimizes rear-wheel lockup during severe braking.

▲ G30 Extended-Body Beauville Sportvan with Deluxe Two-Tone in Royal Blue Metallic and Sky Blue.

▲ Beauville cloth interior of G30 Extended-Body Sportvan in Blue with optional fourth-row bench seat for 15-passenger capacity. Remove all the rear seats and you get a whopping 306.0 cu. ft. of cargo space.

Consider the optional luxury-level Beauville trim as the frosting on the cake. Exterior highlights on a Beauville Sportvan include quad over-and-under headlights and bright moldings on body sides and wheel openings. Inside, the Beauville version of full-size-van comfort includes your choice of Custom Vinyl or Custom Cloth, color-keyed carpeting and a roomy storage compartment beneath the front passenger seat. The Beauville trim is not available with 110-inch-wheelbase models.

The Extended-Body Beauville Sportvan shown is a true extended-body van—not the simple sheet-metal extension typical of competitive vans. It has the clean lines of single-stamping sheet metal, plus an extended wheelbase, giving it better ride and load distribution characteristics than any sheet-metal extension could.

A. Standard seating for five (all except G30 Extended-Body).

B. Optional seating for eight (G20/G30 Regular Body only).

C. Optional seating for twelve (G30 only—standard in G30 Extended-Body).

D. Optional seating for fifteen (G30 Extended-Body only).

These convenient option packages make it easy to tailor the Sportvan to your exact specifications and can save you money. You would pay appreciably more buying all the options in a Preferred Equipment Group as individual options. (Savings based on comparison of Manufacturer's Suggested Retail Price of option packages versus M.S.R.P. of individual options purchased separately.)

▲ Sportvan's standard 60/40 swing-out side doors make it easy to load and unload cargo, and the wider door opens separately for passengers.

▲ Optional Driver Convenience Group, consisting of Comfortilt steering wheel and electronic speed control.

▲ Optional Below Eyeline stainless-steel mirrors provide excellent rear vision without obstructing the driver's side view.

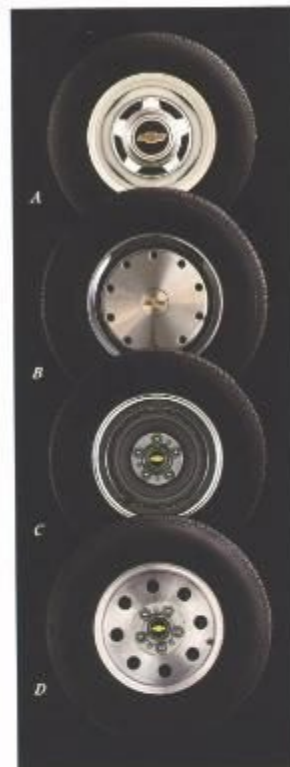

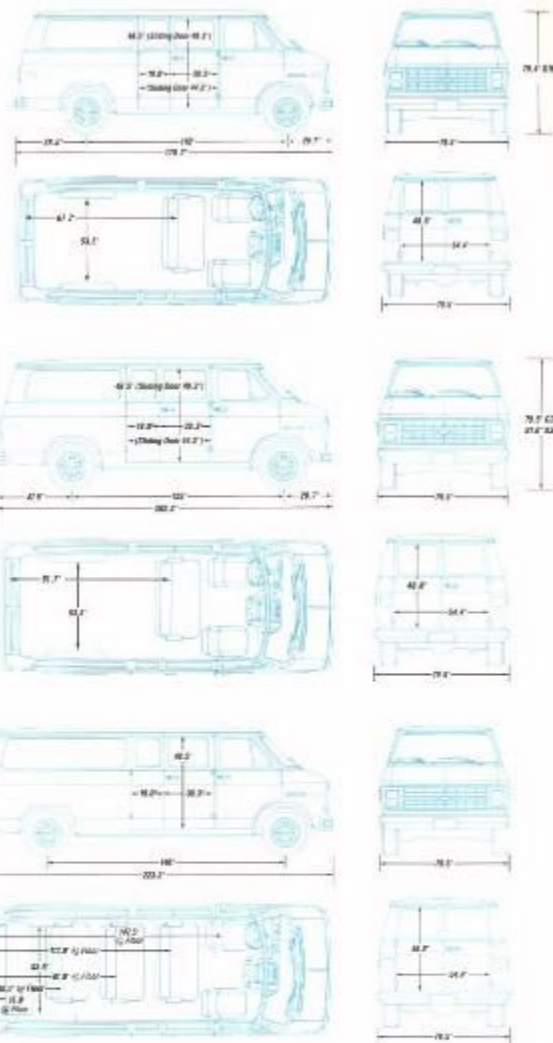

▲ Optional high-back bucket seats with Custom Cloth and reclining seat-backs.

INDIVIDUALLY AVAILABLE OPTIONS

(May be added to any Preferred Equipment Group if not already included.)

¹ Maximum gross trailer weight includes all passengers and cargo in the Sportvan, plus any cargo in the trailer. If you order more than the maximum required equipment or carry more than two passengers, the additional weight must be subtracted from the maximum gross trailer weight. ² Not available with G10 models. ³ Not in Extended Body Sportvan. GCWR, Model and driving combinations may be verified by your local dealer for correct equipment.

TRAILERING SPECIAL PACKAGES

If you intend to tow a light trailer (up to 2000 lbs. gross weight) with your new Sportvan, a *Light-Duty Trailering Special Package (Regular Production Option Z72)* is highly recommended. RPO Z72 includes a dead-weight hitch which is bolted to the Sportvan's rear bumper and undercarriage and includes a 1-7/8" diameter hitch ball. This package also includes a light-duty 5-wire wiring harness with male-female connector and pigtail that must be spliced into the trailer wiring harness. This allows Sportvan's electrical system to activate your trailer lights and other electrical systems.

If you intend to tow a medium trailer (up to 4000 lbs. gross weight) or a heavy trailer (up to 10,000 lbs. gross weight) a *Heavy-Duty Trailering Special Package—RPO Z82* (not available with G10 models)—is recommended for medium trailers and is a required option for heavy trailers. (This Z82

option is also required, regardless of gross trailer weight, if your trailer tongue weight exceeds 400 lbs.) RPO Z82 includes: a weight-distributing platform hitch receiver which is bolted to Sportvan's undercarriage; an engine oil cooler; a transmission oil cooler, and a heavy-duty 7-wire wiring harness. With either trailering package, the wiring harness comes coiled and taped. The harnesses will be located under the body at center right.

See the chart above for weight limits, axle ratios and trailering options. To help you in ordering, Regular Production Option (RPO) numbers are listed.

If you prefer to use Gross Combination Weight Ratings (GCWRs) to determine the engine, transmission and rear axle ratio you will require for towing, see the GCWR chart on page 69. Other important trailering information is available in the Owner's Manual of every 1991 Chevy truck.

▲ Standard 2-Door S-10 Blazer vinyl interior in Blue, with foam-cushioned Custom Vinyl front bucket seats. Optional 2-passenger rear bench seat folds flat for 67.3 cu. ft. of cargo space.

▶ 2-Door S-10 Blazer 2WD in Sky Blue.

Even the standard 2-door model can fulfill a fantasy.

All the travel adventures stored in your imagination may call for a vehicle that hauls like a wagon, tows like a truck and rides like a car. If so, you're in luck.

The standard-trim* 2-Door S-10 Blazer, available as either a 2WD or 4x4 model, features a 4.3 Liter (262 Cu. In.) Vortec V6 engine with Electronic Fuel Injection for abundant climbing and passing power, plus a rear-wheel anti-lock brake system (operates in 2WD mode only).

A properly equipped S-10 Blazer 2WD can tow up to three tons (6000 lbs.), including trailer, people and cargo (5500 lbs. for 4x4 models). And the 4x4 model has a standard Insta-Trac 4x4 system that lets you shift in and out of 4-wheel drive without stopping or backing up.

*The standard trim is not available on 4-Door S-10 Blazer models.

▲ 4-Door S-10 Blazer 4x4 with Tahoe trim level, optional Deluxe Two-Tone in Royal Blue Metallic and Silver Metallic, and other selected options. Every S-10 Blazer has a lift-up glass window and a drop-down tailgate which create a large opening (48.9 in. x 32.5 in.) for easy loading and unloading of cargo.

◆ 4-Door S-10 Blazer Tahoe 4x4 interior with Special Custom Cloth in Blue. Shown with standard front/rear bench seats which provide 6-passenger seating.

***Now you're
talking fantasy
and luxury.***

Most S-10 Blazer buyers have traditionally selected the optional Tahoe trim, shown here in all its glory. It continues to be the mid-level luxury trim choice in the 1991 2-Door S-10 Blazer. However, in the new-for-'91 4-Door S-10 Blazer, the Tahoe trim comes standard.

No matter how you decide on Tahoe, its enhancements beyond the 2-door base trim include: Rally Wheels with trim rings on 2WD models, and black steel wheels with trim rings on 4x4 models; black body-side moldings with

bright trim; bright wheel-opening moldings; reclining front bucket seats in 2-door models and a 3-passenger front bench in 4-door models, both with your choice of Custom Vinyl or Special Custom Cloth; a color-keyed center console in 2-door models; color-keyed carpeting; carpeted lower-door, rear-quarter and endgate panels; an inside rearview mirror with dual reading lamps; an engine compartment lamp; and front and rear color-keyed floor mats.

◆ 4-Door S-10 Blazer 4x4 in Apple Red with optional Sport trim.

▼ 4-Door S-10 Blazer 4x4 in Charcoal with optional Sport trim, including Deluxe Cloth.

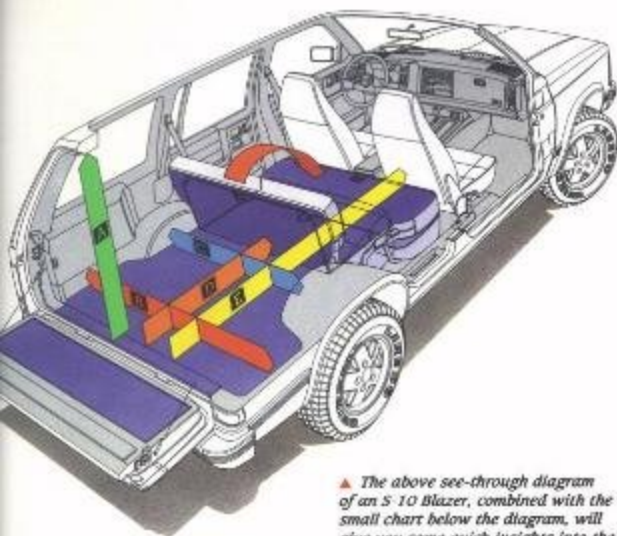

*It simply doesn't
get any better
than this.*

The optional Sport trim gets you the ultimate S-10 Blazer.

Exterior amenities include: black body-side moldings with bright accents; body-colored front and rear bumpers with rub strips; a gloss-black grille with gold-colored Chevy bowtie; black wheel-opening moldings; and gray aluminum wheels on 2WD models and cast-aluminum wheels on 4x4 models.

The Sport interior trim includes: plush Deluxe Cloth in Blue, Charcoal, Garnet or Saddle on the reclining front bucket seats and door panels; a center console; a passenger-side visor-mounted vanity mirror; two rearview-mirror-mounted reading lamps; and an engine compartment lamp. The Sport package even includes a black Sport steering wheel.

Beyond Sport, there are option choices to further satisfy your taste for the good life. See pages 45-46 for details.

▲ The above see-through diagram of an S-10 Blazer, combined with the small chart below the diagram, will give you some quick insights into the dimensional differences between the roomy 2-door model and the even roomier 4-door model.

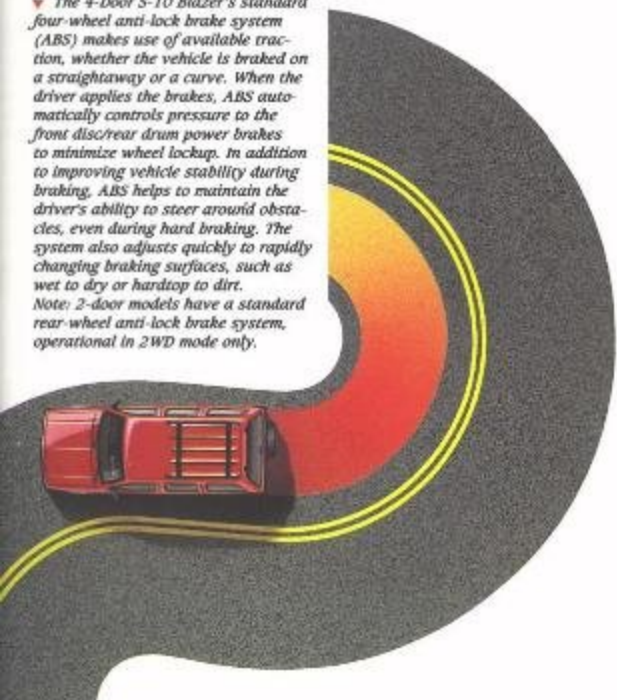

INTERIOR DIMENSIONS (in.)

	2-Door	4-Door
A	35.0	34.5
B	50.0	52.5
C	38.4	38.4
D	35.5	38.5
E	68.6	76.1

► The S-10 Blazer interior has been thoughtfully designed with driver and passenger comfort clearly in mind. Standard touches include: tinted glass; an electronically tuned AM radio with digital clock; a full gage package; padded armrests; map pockets; sunshades; and side-window defoggers. The S-10 Blazer interior shown to your right is a 4-Door Tahoe 2WD with a new for '91 standard 3-passenger front bench.

▼ The 4-Door S-10 Blazer's standard four-wheel anti-lock brake system (ABS) makes use of available traction, whether the vehicle is braked on a straightaway or a curve. When the driver applies the brakes, ABS automatically controls pressure to the front disc/rear drum power brakes to minimize wheel lockup. In addition to improving vehicle stability during braking, ABS helps to maintain the driver's ability to steer around obstacles, even during hard braking. The system also adjusts quickly to rapidly changing braking surfaces, such as wet to dry or hardtop to dirt. Note: 2-door models have a standard rear-wheel anti-lock brake system, operational in 2WD mode only.

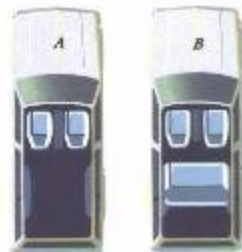

SEATING POSSIBILITIES

Model	Standard	Optional	Trim Levels
2-door 2WD	2	4	Standard, Tahoe, Sport
2-door 4x4	2	4	Standard, Tahoe, Sport
4-door 2WD	3	2, 5, 6	Tahoe
4-door 2WD	2	5	Sport
4-door 4x4	6	5	Tahoe
4-door 4x4	5	—	Sport

S-10 Blazer offers you a lot of flexibility when it comes to passenger space vs. cargo space. Study the seating diagrams and chart above to see just what we mean.

- A. 2 passengers (front buckets).
- B. 4 passengers (2-pass. rear bench).
- C. 2 passengers (front buckets).
- D. 3 passengers (3-pass. front bench).
- E. 5 passengers (front buckets, 3-pass. rear bench).
- F. 6 passengers (3-pass. front and rear benches).

2-DOOR SEATING

4-DOOR SEATING

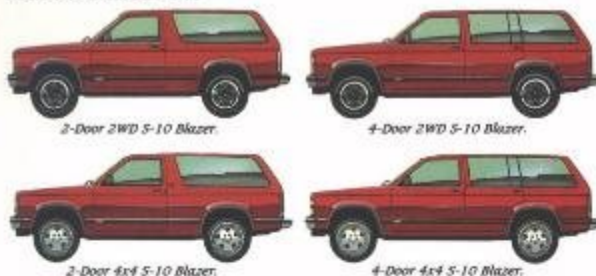

The more practical aspects of a fantasy vehicle.

You may never drive your '91 S-10 Blazer to Patagonia (or Timbuktu), but isn't it nice to know it's designed for such long trips?

The foam-cushioned seat thoroughly accommodates you. The steering wheel fits your grip like a custom glove. The instrumentation has a common-sense layout and is an easy reach. And the seating is adaptable to your passenger-vs.-cargo needs of the moment.

The S-10 Blazer isn't just a fabulous escape vehicle with intrepid V6 power, Electronic Fuel Injection and 5-speed manual transmission with overdrive. It's also a fabulous everyday vehicle. From intercontinental expeditions to local shopping expeditions — and everything in between — S-10 Blazer is a very practical choice.

¹ Upgrade allowed. ² Requires C-Quam[®] AM stereo broadcast. Most AM stereo stations across the country broadcast in C-Quam, but some do not. Check with your local stations for compatibility in your area.

These convenient option packages make it easy to tailor the S-10 Blazer to your exact specifications and can save you money. You would pay appreciably more buying all the options in a Preferred Equipment Group as individual options. (Savings based on comparison of Manufacturer's Suggested Retail Price of option packages versus M.S.R.P. of individual options purchased separately.)

▲ Rearview mirror with dual reading lights (included with Tahoe or Sport trim only).

▲ S-10 Blazer with the following optional equipment: luggage rack with wind deflector; swing-out spare tire carrier with tire cover; and rear window defogger and wiper.

▲ Available electronic speed control with Resume Speed feature lets the driver relax more on long trips.

▲ Driver Convenience Group, consisting of Comfortilt steering wheel and intermittent windshield wipers, is available in 2-door and 4-door models. See Preferred Equipment Groups to your left.

▲ Available tinted, manually operated sunroof (available with 2-door only).

¹ Maximum gross trailer weight includes all passengers and cargo in the S-10 Blazer, plus any cargo in the trailer. If you order more than the maximum required equipment or carry more than two passengers, the additional weight must be subtracted from gross trailer weight. ² Gross trailer weight is reduced by 1000 lbs. if P205/75R-15 tires are used. GVW, Model and direction combinations must be verified by your local dealer for correct emissions equipment.

TRAILERING SPECIAL PACKAGES

If you intend to tow a light trailer (up to 2000 lbs. gross weight) with your new S-10 Blazer, a Trailering Special Package (Regular Production Option Z72) is highly recommended. RPO Z72 includes a deadweight hitch which is bolted to the Blazer's rear bumper and undercarriage and includes a light-duty 5-wire wiring harness with male-female connector and pigtail that must be spliced into the trailer wiring harness. This allows Blazer's electrical system to activate your trailer lights and other electrical systems.

If you intend to tow a medium trailer (up to 4000 lbs. gross weight) or a heavy trailer (up to 6000 lbs. gross weight), a heavy-duty Trailering Special Package—RPO Z82—is a required option. (This Z82 is also required, regardless of gross trailer weight, if your trailer tongue weight exceeds 400 lbs.) RPO Z82 includes a weight-distributing platform hitch receiver which is bolted to

Blazer's undercarriage; an engine oil cooler; a transmission oil cooler; and a heavy-duty 7-wire wiring harness.

With either trailering package, the wiring harness comes coiled and taped. The 5-wire harness will be located under the body at LH rear, and the 7-wire harness also under the body at RH rear.

See the chart above for weight limits, axle ratios and trailering options. To help you in ordering, Regular Production Option (RPO) numbers are listed.

Note that, although S-10 Blazers can be purchased with standard manual transmissions, Chevrolet strongly recommends using the optional 4-speed automatic transmission with overdrive for towing.

If you prefer to use Gross Combination Weight Ratings (GCWRs) to determine the engine, transmission and rear axle ratio you will require for towing, see the GCWR chart (which covers both automatic and manual transmissions) on page 69. Other important trailering information is available in the Owner's Manual of every 1991 Chevy truck.

▶ *Scottsdale Blazer Custom Vinyl interior in Blue, with standard front bucket seats and optional 3-passenger rear bench seat. The rear seat is removable, leaving 106.5 cu. ft. of cargo space.*

▼ *Scottsdale Blazer in Summit White. Blazer's standard wagon-style tailgate facilitates loading and unloading.*

The standard model and the star model.

America's original full-size sport utility is available as either a standard Scottsdale model or as a luxury-level escape vehicle with optional Silverado trim.

The Scottsdale Blazer, as the photos will attest, is a pleaser from the outside on in. And, beyond its styling strengths and interior comforts, the Scottsdale has a tough, ground-grabbing four-wheel-drive system and a powerful 5.7 Liter (350 Cu. In.) gasoline V8 engine with Electronic Fuel Injection. (A diesel-powered model is also available.)

▲ *Blazer with optional Silverado trim and Deluxe Two-Tone in Mojave Beige and Sunset Gold Metallic.*

◆ *Optional luxury-level Silverado interior trim in Saddle with Custom Cloth. Shown with optional 3-passenger rear bench seat.*

A. Standard 2-passenger seating.
B. Optional 5-passenger seating.

A properly equipped Blazer can move up to 12,000 lbs., including vehicle, trailer, people, cargo and equipment.

Standard Blazer features also include power brakes, a rear-wheel anti-lock brake system (operates in 2WD mode only) and power steering.

The optional luxury-level Silverado trim elevates four-wheeling escapism to new heights of style and luxury (which may explain why most people order their Blazer this way).

Interior Silverado touches include high-back reclining front bucket seats, a center console with storage and beverage pockets, your choice of Custom Vinyl or Custom Cloth trim, color-keyed carpeting; embossed black rubber floor mats in front and rear seating areas; and an auxiliary lighting package.

Exterior Silverado highlights include chrome grille trim, dual quad halogen headlamps, bumper guards and rub strips, bright wheel-opening moldings and wheel covers.

Trailer Special Package	—	Z82	Z82	—	Z82	Z82
Minimum Rear Axle Ratio	2.73	3.42	3.73(6000)	3.08	3.42	3.73
Heavy-Duty Radiator	V01	—	—	Std.	Std.	Std.
Below Eyeline Outside Rearview Mirrors	—	D45	D45	—	D45	D45
Electronic Speed Control & Comfort Steering Wheel	—	ZQ3	ZQ3	—	ZQ3	ZQ3

¹ Not available in California. ² Maximum gross trailer weight includes all passengers and cargo in the Full-Size Blazer, plus any cargo in the trailer. If you order more than the minimum required equipment or carry more than two passengers, the additional weight must be subtracted from the maximum gross trailer weight. NOTE: Model and driveline combinations must be verified by your local dealer for correct emissions equipment.

TRAILERING SPECIAL PACKAGES

If you intend to tow a light trailer (up to 2000 lbs. gross weight) with your new Full-Size Blazer, an optional Light-Duty Trailering Special package is not available. A heavy-duty radiator is recommended. A deadweight hitch and 5-wire wiring harness are recommended for trailers up to 2000 lbs. The hitch is available as an accessory but the harness must be furnished by an outside supplier. An optional heavy-duty radiator is also recommended.

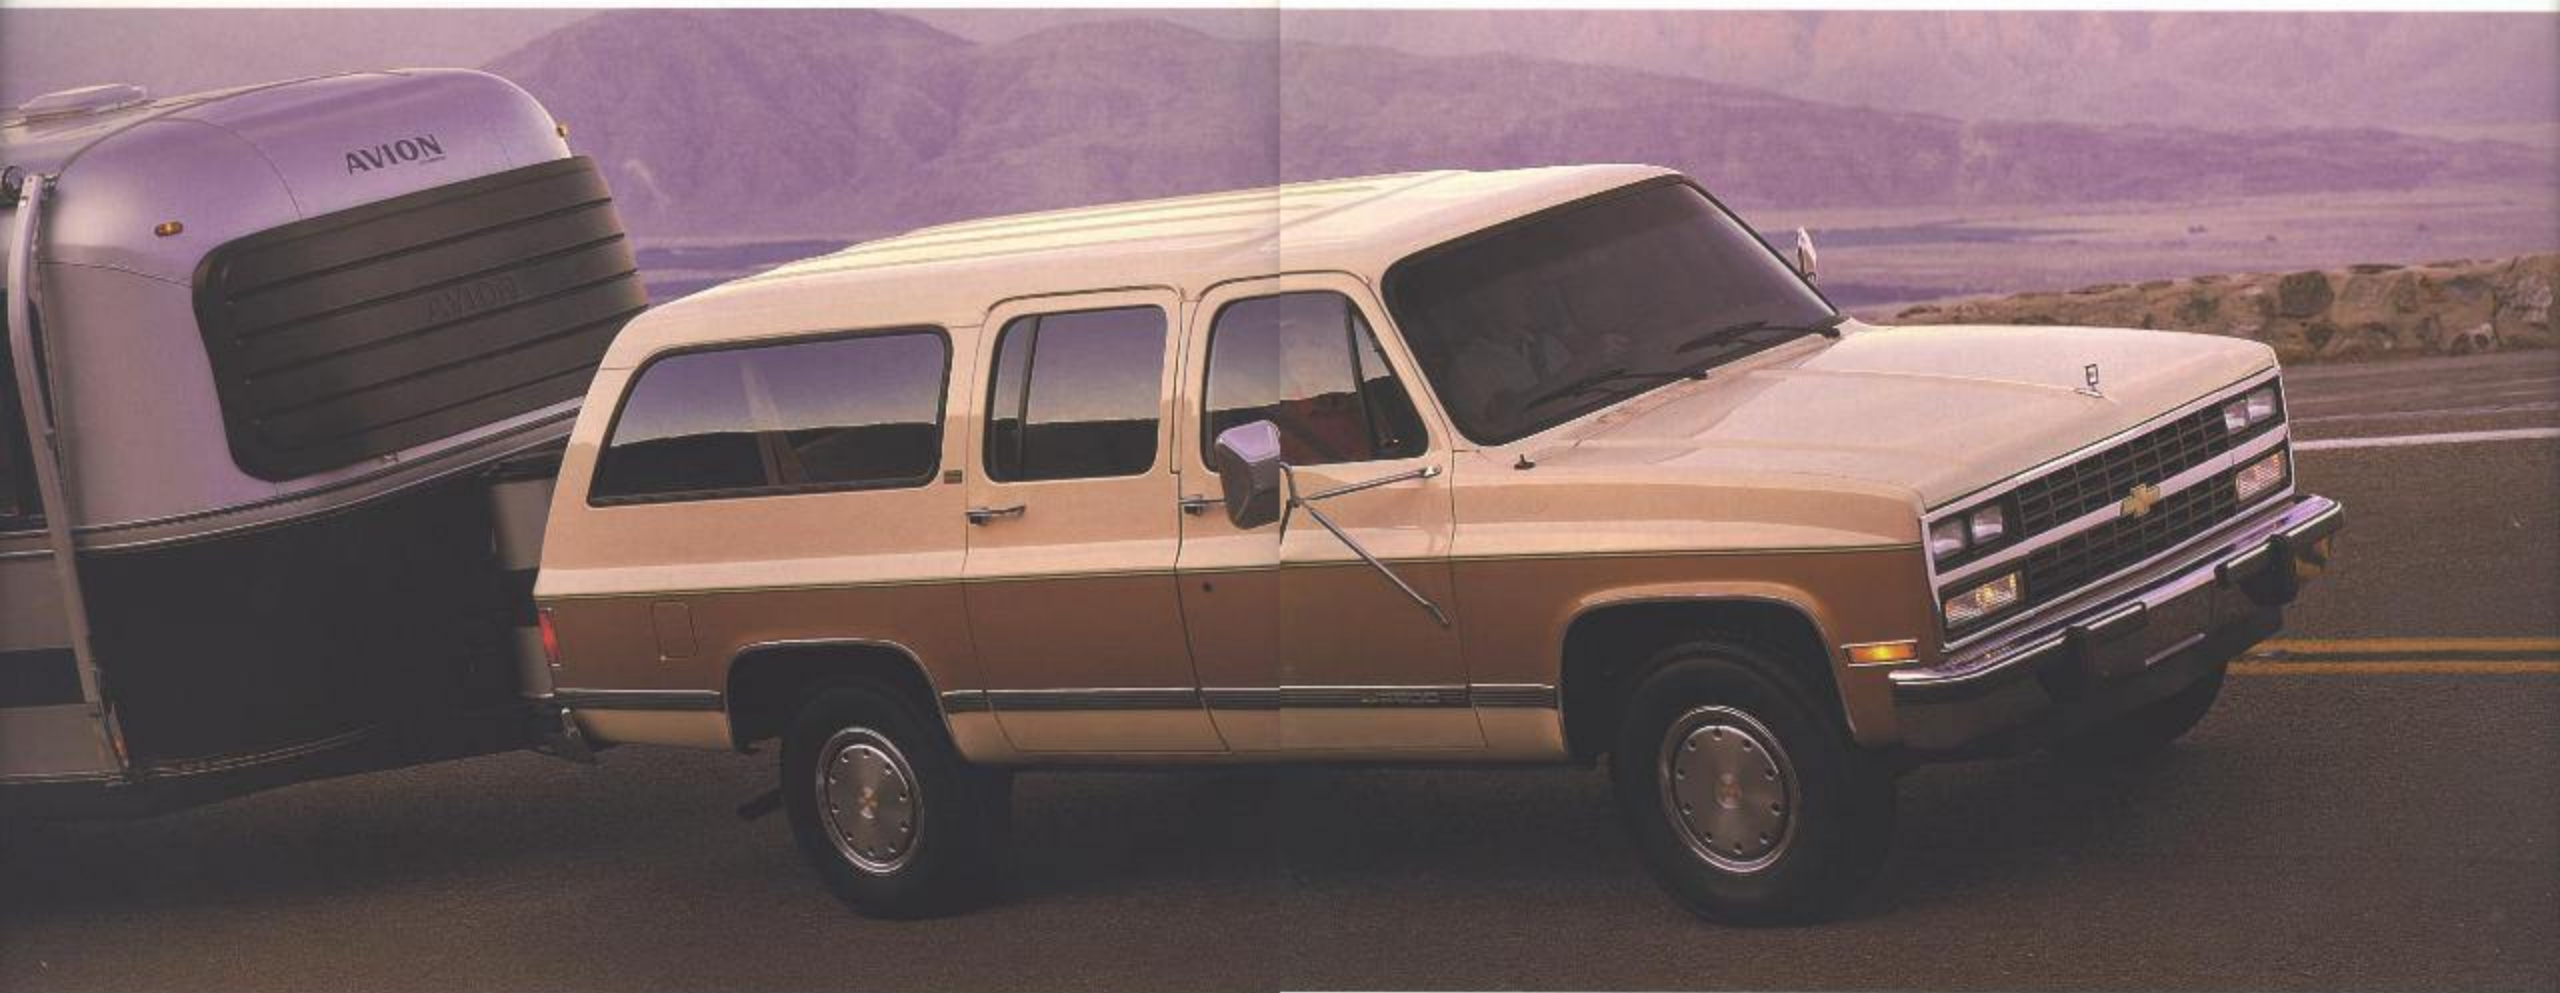

If you intend to tow a medium trailer (up to 4000 lbs. gross weight) or a heavy trailer (up to 6000 lbs. gross weight), *Heavy-Duty Trailering Special Package RPO Z82* is recommended for medium trailers and is a required option for heavy trailers. (This Z82 option is also required, regardless of gross trailer weight, if your trailer tongue weight exceeds 400 lbs.) RPO Z82 includes: a weight-distributing platform hitch receiver which is bolted to the Blazer's undercarriage; an engine oil cooler; a transmission

oil cooler; and a heavy-duty 7-wire wiring harness. The wiring harness comes coiled and taped, and will be located above the heavy-duty hitch.

See the chart above for weight limits, axle ratios and trailering options. To help you in ordering, Regular Production Option (RPO) numbers are listed.

Note that, although gasoline-powered Full-Size Blazers can be purchased with a standard manual transmission, Chevrolet strongly recommends using the optional 4-speed automatic transmission (standard in diesel-powered models) for towing.

If you prefer to use Gross Combination Weight Ratings (GCWRs) to determine the engine, transmission and rear axle ratio you will require for towing, see the GCWR chart (which covers manual and automatic transmissions) on page 69. Other important trailering information is available in the Owner's Manual of every 1991 Chevy truck.

▲ R2500 Suburban with optional luxury-level Silverado trim and Deluxe Two-Tone in Mojave Beige and Sunset Gold Metallic.

Ideal for nine people with a lot of trailer.

▲ R2500 (2WD) Suburban in Summit White with standard Scottsdale trim.

► Scottsdale Custom Vinyl interior in Saddle with standard 3-passenger bench seat.

**Your choice:
a lot of Suburban
or a lot more
Suburban.**

Most people in the market for a full-size, truck-based station wagon for personal use choose a 2WD (R) or 4x4 (V) Chevy Suburban — either a 1500 Series (1/2-ton) or 2500 Series (3/4-ton).

Suburban buyers are drawn to its unique good looks, standard 5.7 Liter (350 Cu. In.) gas V8 power, tremendously versatile people-carrying and cargo-hauling capabilities, and trailering can-do that no car-type wagon can touch. A properly equipped 3/4-ton R2500 Series Suburban can move up to 16,000 lbs., including vehicle, trailer, people, cargo and equipment.

Suburban can carry up to nine people with available seating, and offers both gas- and diesel-engine models.

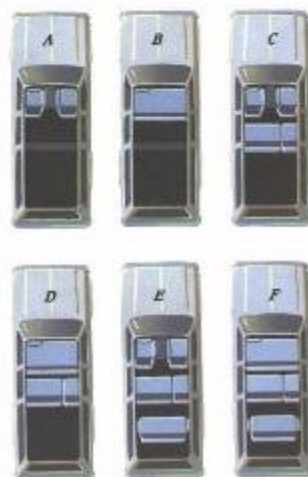

▲ Suburban interior in Blue with optional Silverado trim and optional eight-passenger seating (optional reclining front bucket seats and optional center-row and rear-row bench seats). The rear-row bench seat is removable and the center-row bench seat folds down to provide up to 167.0 cu. ft. of cargo space.

◀ V1500 (4x4) Suburban with optional luxury-level Silverado trim and Special Two-Tone in Brilliant Blue Metallic and Quicksilver Metallic.

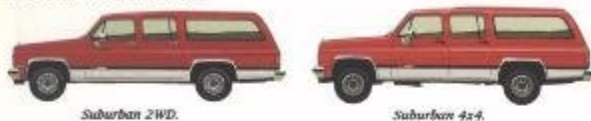

Standard Suburban features include a rear-wheel anti-lock brake system (operates in 2WD mode only), power steering, power brakes and dual rear panel-type doors (or, at no extra cost, a wagon-type fold-down tailgate).

The standard Scottsdale Suburban is one handsome machine, both to look at and lounge in. But the Silverado trim option is undeniably top-of-the-line. Silverado embellishments include chrome grille trim, dual quad halogen headlamps, full wheel covers, Custom Cloth interior trim, color-keyed carpeting, power door locks, a center console with storage and auxiliary light package.

A. Opt. 2-passenger seating.
B. Std. 3-passenger seating.
C. Opt. 5-passenger seating.
D. Opt. 6-passenger seating.
E. Opt. 8-passenger seating.
F. Opt. 9-passenger seating.

These convenient option packages make it easy to tailor the Suburban to your exact specifications and can save you money. You would pay appreciably more buying all the options in a Preferred Equipment Group as individual options. (Savings based on comparison of Manufacturer's Suggested Retail Price of option packages versus M.S.R.P. of individual options purchased separately.)

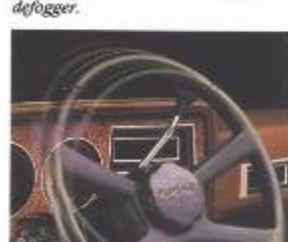

▲ Optional rear-window defoggers shown with Suburban's dual rear-panel doors.

▲ Suburban's optional wagon-type fold-down tailgate can also be ordered with optional rear-window defogger.

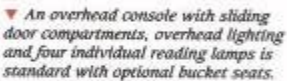

▲ Optional dual electric rear-view mirrors provide the Suburban driver with one-touch, fingertip control for mirror adjustments. (Requires Silverado trim and Driver Convenience Group.)

▲ Optional Driver Convenience Group includes Comfortilt steering wheel and electronic speed control with Resume and Accelerate features. Comfortilt makes getting in and out of the driver's seat easy and gives the driver a choice of many steering wheel angle adjustments. Electronic speed control allows the driver to set the vehicle speed and get more enjoyment out of long stretches of turnpike-type driving. Sport steering wheel shown.

▲ An optional Operating Convenience Package consisting of power door locks and power windows is considered an essential convenience by many travelers.

▼ An overhead console with sliding door compartments, overhead lighting and four individual reading lamps is standard with optional bucket seats.

▲ The standard multi-function lever provides handy controls for intermittent wipers, washers, directional signals and high/low beam. Shown with optional electronic speed control, available only with Comfortilt steering wheel.

¹ Maximum gross trailer weight includes all passengers and cargo in the Suburban, plus any cargo in the trailer. If you order more than the maximum gross trailer weight, the additional weight must be subtracted from the maximum gross trailer weight. NOTE: Axle and drive shaft combinations must be applied to your local dealer for correct maximum equipment.

TRAILERING SPECIAL PACKAGES

If you intend to tow a light trailer (up to 2000 lbs. gross weight) with your new Suburban, an optional Trailering Special Package is not required. However, a deadweight hitch and 5-wire wiring harness are recommended for trailers up to 2000 lbs. The hitch is available as an accessory but the harness must be furnished by an outside supplier.

If you intend to tow a medium trailer (up to 4000 lbs. gross weight) or a heavy trailer (up to 9500 lbs. gross weight), *Heavy-Duty Trailering Special Package RPO Z82* is recommended for medium trailers and is a required option for heavy trailers. (This Z82 option is also required, regardless of gross trailer weight, if your trailer tongue weight exceeds 400 lbs.) RPO Z82 includes a weight-

distributing platform hitch receiver which is bolted to the Suburban's undercarriage; an engine oil cooler; a transmission oil cooler; and a heavy-duty 7-wire wiring harness.

The wiring harness comes coiled and taped, and will be located above the heavy-duty hitch.

See the chart above for weight limits, axle ratios and trailering options. To help you in ordering, Regular Production Option (RPO) numbers are listed.

If you prefer to use Gross Combination Weight Ratings (GCWRs) to determine the engine, transmission and rear axle ratio you will require for towing, see the GCWR chart on page 69.

Other important trailering information is available in the Owner's Manual of every 1991 Chevy truck.

Chevrolet offers a wide selection of available options for trailering, and only a few of them are illustrated and described here. Check with your Chevrolet dealer for complete information on these items, as well as many others, for your Chevy truck.

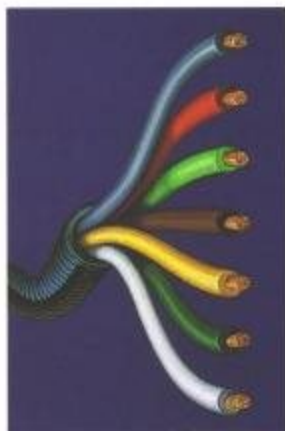

▲ Light-duty trailer hitch for hauling trailers up to 2000 lbs. with a maximum tongue load of 200 lbs. 1-7/8" diameter ball is included. (Dealer-installed accessory. See chart for part numbers.)

▲ A weight-distributing platform hitch receiver is required when towing trailers over 2000 lbs. Installs quickly and easily. (Dealer-installed accessory. See chart below for part numbers.)

▲ A 1 7/8" diameter hitch ball is standard with light-duty hitches. Also available as an accessory: Part No. 981148. A 2" diameter ball is also available for hitches as Part No. 980670.

▲ An optional 5-wire wiring harness is used with trailers up to 2000 lbs. gross weight, and a 7-wire for larger trailers. Harnesses tie into the vehicle's electrical system to provide electricity for your trailer's lights, electric brakes or battery charging. This color code for Chevy trucks should be used when installing trailer wiring harnesses:

- BLUE. Use for electric trailer brakes or auxiliary wiring.
- RED. Use for battery charging. Connects to starter solenoid (7-wire harness only).
- LIGHT GREEN. Backup lights (7-wire harness only).
- BROWN. Taillight and running lights.
- YELLOW. Left stop and turn signal.
- DARK GREEN. Right stop and turn signal.
- WHITE. Ground.

MIRRORS

Chevy trucks used as tow vehicles will require outside mirrors with extensions that exceed the width of the trailer to be towed. Optional mirrors with larger mounting brackets are available with all Chevy truck models.

COOLERS AND COOLING

Trailering creates higher-than-normal temperatures in coolant, engine and transmission oil. To help control these temperatures, Chevy offers the following separate options.

RPO VO1: This heavy-duty radiator option provides increased radiator and transmission cooling. (Included with optional automatic transmission or air conditioning.)

RPO VO2: This is an extra-capacity heavy-duty automatic transmission oil cooler option. (Included in RPO Z82 Trailering Special Package.)

RPO KC4: This optional engine oil cooler circulates oil through a special cooler in the radiator. (Included in RPO Z82 Trailering Package.)

GROSS COMBINATION WEIGHT RATING (GCWR)

Includes Weight of Both Truck and Trailer By Engine & Axle Ratio.

GCWR (lbs.)	Includes Weight of Both Truck and Trailer By Engine & Axle Ratio.												
	With Automatic Transmissions												
Engines	Rear Axle Ratios												
3.1L (291) V6 Gas	3.18												
4.3L (262) V6 Gas		3.08 ¹	3.23	3.42 ²	3.73	4.10 ²							
5.0L (305) V8 Gas				3.08		3.42		3.73					
5.7L (350) V8 Gas					3.08		3.42		3.73	4.10		4.56	
6.2L (379) V8 Diesel			3.08		3.42		3.73		4.10	4.56			
7.4L (454) V8 Gas									3.42	3.73		4.10	
With Manual Transmissions													
GCWR (lbs.)			6500		7000		10,000			11,000			
4.3L (262) V6 Gas ¹				3.08		3.42							
5.7L (350) V8 Gas							3.08			3.42			

¹ GCWR for 5-10 Blazer with automatic transmission is reduced by 1000 lbs. when 2.35:1 axle ratio is specified. ² Based on 10,000-lb. GCWR with 4.10:1 (high output) V8 engine. ³ GCWR for 5-10 Blazer with manual transmission are increased by 1000 lbs., but increased by only 500 lbs. if the vehicle has 2.35:1 axle ratio. ⁴ Model and axle/ratio combinations must be verified by your local dealer for correct emission equipment.

THE USE OF GCWRs TO DETERMINE POWERTRAIN AND REAR AXLE RATIOS.

Perhaps you prefer to use Gross Combination Weight Ratings (GCWRs) to determine the engine, transmission and rear axle ratio you will require to tow a specific trailer with your Chevy truck. The chart above allows you to do just that. It shows you the maximum allowable GCWR based on all the available truck engines and rear axle ratios with automatic or manual transmissions. The GCWR includes the total loaded weight of both the truck and the trailer. Any available engine may be used for trailering if the GCWR shown is not exceeded. The trailer weight can be 25% greater if the vehicle speed will not exceed 25 mph.

DEALER-INSTALLED HITCHES

Trailer Classification	Light	Light/Medium	Heavy	Heavy
Gross Trailer Weight (lbs.)	Up to 2000	Up to 4000	Up to 6000	Up to 7000
Tongue Load (lbs.)	200	400	750	850
Type of Hitch	Deadweight ¹	Rear Step Bumper ²	Weight-Distributing Platform	Weight-Distributing Platform
Sportvan	995742	995689-Painted	—	995745
S-10 Blazer	998954	—	998484 ³	—
Full-Size Blazer	996922	—	996925	—
Suburban	996922	—	—	996924 ⁴

¹ Deadweight hitch includes 1-7/8" ball & 1-7/8" ball for step-type bumper—Part No. 981148. All except S-10. Part No. 980670 for S-10. ² Ball for step-type bumper—Part No. 980670. All except S-10. Part No. 980670 for S-10. ³ Maximum trailer weight 5000 lbs. Maximum tongue load 600 lbs. ⁴ Maximum trailer weight 8500 lbs. Maximum tongue load 1000 lbs.

CAUTION: If your light-duty Chevy truck is equipped with a rear step bumper, the 1-1/2" height of the rear trailer bumper could dent the bumper or a sharp rive. Before towing a trailer with this hitch in place, check the distance from the floor to the edge of the rear line of the tongue ball socket. If this dimension is less than 12 inches, remove the ball from the trailer. If possible damage to the rear step bumper could occur.

FOUR-WHEELING TIPS

Chevrolet takes considerable pride in its ability to provide high-quality vehicles for the growing sport of off-roading. However, as providers of such vehicles, we also share responsibility for the preservation of that which makes the very thrill of off-roading possible: the natural environment.

We share that responsibility with you, the individual off-roader. And we ask you to join with us in a "pro-

environment" attitude as you pursue the many pleasures of "four-wheeling."

As the source for many types of light-duty trucks, Chevrolet encourages you to drive at least as carefully off-road as on-road—and to do your part to help preserve the beauty of America's wildlands.

If you intend to purchase a Chevy truck and drive it off-

road, there is literature available that offers excellent suggestions for safe, responsible four-wheeling. It's advice designed to protect you, your vehicle *and* the environment.

Your Chevrolet Owner's Manual clearly describes the vehicle's capabilities and limitations, plus the maintenance schedule to keep your Chevy running right. We strongly suggest that you thoroughly read the Owner's Manual.

Additional good ideas on responsible four-wheeling are available in *Chevy Outdoors* magazine and in other publications. Ask your Chevy truck dealer for subscription information on *Chevy Outdoors*.

CHEVROLET'S BEST WARRANTY EVER.

GM's 3-year/50,000-mile limited warranty offers a security blanket covering just about everything. Almost every part is covered, from front to back, road to roof. The limited warranty covers repairs for any new Chevrolet van or light-duty truck, including labor and parts, to correct any defects in material or workmanship occurring during the warranty period. After the first year or first 12,000 miles, whichever comes first, repairs are subject to a \$100 deductible per repair visit. Warranty features include no-cost warranty transfer, 6-year/100,000-mile body-rust-through protection, and 5-year/50,000-mile emissions control system coverage. Other warranty features include: *Air conditioning repair.* The sealed refrigerant portion of the factory-installed air conditioning system has no deductible the first year, regardless of mileage. *Towing.* If your vehicle cannot be driven because of a defect covered by warranty, towing to the nearest Chevrolet dealership is covered. Items not covered include tires (which are covered by their manufacturers) and normal maintenance. See your Chevrolet dealer for details, including terms and conditions of this limited warranty.

NEW-VEHICLE LIMITED WARRANTY	Coverage
Bumper to Bumper Plus coverage, except tires*, less \$100 deductible after 12 months or 12,000 miles, whichever comes first.	3 years/50,000 miles
Air Conditioning (deductible applies after one year)	1 year regardless of distance
Corrosion (rust-through) (deductible does not apply)	6 years/100,000 miles
Emissions Control System (deductible does not apply)	5 years/50,000 miles
Warranty Transfer (fully transferable to all subsequent owners)	No Charge

*Tires are covered by their manufacturers.

CHEVY LIGHT-DUTY TRUCK AND LUMINA APV SAFETY FEATURES.

Occupant Protection (Regulatory)

- Manual lap/shoulder safety belts, outboard front and rear seat positions
- Manual lap safety belts, center front/rear seat positions, where applicable
- Energy-absorbing steering column
- Energy-absorbing instrument panel
- Energy-absorbing front seat back tops
- Interlocking door latches
- Inertia-locking, folding front seat-backs, two-door models
- Safety armrests
- Break away inside rearview mirrors
- Security door locks and door retention components

(Non-Regulatory)

- Tempered safety glass, side windows and rear windows (laminated safety glass in Suburban rear-door quarter windows)
- Dual sun visors

Accident Avoidance (Regulatory)

- Side marker lamps and reflectors
- Parking lamps that illuminate with headlamps
- Four-way hazard warning flasher
- Back-up lamps
- Directional signal control with lane change feature
- Windshield defroster, washer and multi-speed wipers
- Outside left and right rearview mirrors
- Brake system with dual master cylinder and warning light
- Starter safety switch
- Dual-action hood latch
- Low-glare finish on inside windshield moldings, wiper arms and blades, metallic steering wheel surfaces
- Illuminated heater and defroster controls
- Tires with built-in tread wear indicators

(Non-Regulatory)

- Inside rearview mirror
- Audible brake lining wear indicators, with disc brakes

GM PROTECTION PLAN.

The GM Protection Plan offers service protection in addition to that provided by GM's new-vehicle limited warranty. Available only in the U.S. and Canada. Ask your dealer about this option.

GMAC FINANCING. At your Chevrolet dealer's, financing or leasing your new Chevy truck can be as easy as saying GMAC. All the new Chevy trucks may be financed through the GMAC First-Time Buyer Program, which makes it relatively easy for qualified first-time buyers to get credit. See your Chevrolet dealer for qualification details.

A WORD ABOUT 1991 CHEVY TRUCK BROCHURES.

In addition to this 72-page brochure on Chevy's many Van, Blazer and Suburban choices, you may wish to have the other two 1991 Chevy truck brochures.

The 66-page *Compact & Full-size Pickups* brochure will give you an excellent overview of Chevrolet's wide selection of pickup trucks for work and/or personal use.

The 38-page *Commercial Vehicles* brochure describes the many Chevy trucks designed specifically for commercial applications in business and industry.

Feel free to ask your Chevy truck dealer for one or both of these brochures, depending on your needs and interests.

OUR COMMITMENT TO YOUR SATISFACTION.

Chevrolet has a complete customer satisfaction system in place to ensure your contentment with the truck you buy

and the dealership that sells it to you. It's a system that begins with thorough product inspections throughout the manufacture and assembly of Chevy trucks, continues at your Chevy dealer's with a detailed pre-delivery inspection of the Chevy you select and includes follow-up activities after you've driven your brand-new Chevy home. Chevrolet stays in touch with you, the customer, as long as you own your Chevy. For one thing, we ask for and act upon evaluations of Chevy truck performance and Chevy truck dealer performance.

Your local Chevy truck dealership is a vital link in our customer satisfaction system, and a strong one. Your dealer's salespeople will introduce you to the Chevy of your choice, explain all warranties and maintenance schedules and accompany you on an orientation drive to make sure you're thoroughly familiar with your new truck's features and operation. Equally important, your dealer's service advisors and technicians are highly trained and equipped with the most up-to-date diagnostic and repair equipment, all to help ensure your long-term satisfaction with maintenance and repair work performed on your Chevy.

When you're traveling long distances for pleasure or business, it's also comforting to know there are over 4900 Chevy truck dealers dotting the map of the U.S.A.—each one ready to provide you with professional service and genuine GM parts.

What's more, you can dial this toll-free number: 1-800-222-1020 to talk to trained experts regarding any Chevrolet

ADDITIONAL INFORMATION

product or service problem you may have. (You can call the Chevrolet Customer Assistance Center on Monday through Friday, 8:00 a.m. to 7:30 p.m., Eastern Standard Time.)

IMPORTANT: A WORD ABOUT THIS CATALOG.

We have tried to make this catalog as comprehensive and factual as possible. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details.

A WORD ABOUT ENGINES.

Chevrolests are equipped with engines produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide.

A WORD ABOUT

ASSEMBLY. Chevrolests are assembled by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. Chevrolests incorporate thousands of components produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolests with different or differently sourced components than originally scheduled. All such components have been approved for use in Chevrolet and will provide the quality of performance associated with the Chevrolet name. Since some options may be unavailable when your vehicle is assembled, we suggest that you

verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

A WORD ABOUT UPDATED SERVICE INFORMATION.

Chevrolet regularly sends its dealers useful service bulletins about Chevrolet products. Chevrolet monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll-free: 1-800-551-4123.

A WORD ABOUT CORROSION PROTECTION.

Chevrolests are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for 6 years/100,000 miles. Application of additional rust-inhibiting materials is not required under the corrosion coverage.

Chevrolet, the Chevrolet emblem, S-10, Blazer, Sportvan, Beauville, Astro, Lumina, Suburban, Silverado and Scottsdale are registered trademarks of the General Motors Corporation. Chevy and Insta-Trac are trademarks of the General Motors Corporation. 1990 GM Corp. All rights reserved.

Let's get it together...
Buckle Up.
