

**2006  
JAGUAR  
X-TYPE**

## WRAP YOUR DESIRES IN STEEL

The Jaguar X-TYPE takes an unconventional path to fulfill the most coveted of human desires: a sense of security. Unlike typical luxury cars that employ either front- or rear-wheel drive, the X-TYPE is engineered to give you the driving confidence of all-wheel drive.

Jaguar Traction 4 is technology that automatically distributes power between the front and rear wheels to help utilize the available traction. For 2006, Jaguar offers the X-TYPE in a variety of V6-powered models: the luxurious X-TYPE 3.0 sedan, the versatile X-TYPE Sportwagon, the elegant X-TYPE VDP edition<sup>1</sup> and the performance-oriented X-TYPE sport.

No matter which of the various X-TYPE models you choose, one thing is certain: driving an X-TYPE expresses your desire for style and substance. Isn't it time to fulfill your dreams?

<sup>1</sup> VDP Edition not available in Canada.

## EXERCISE POWER AND CONTROL

Movement is an art form, as anyone who's ever witnessed an X-TYPE at speed can confirm. But that seemingly effortless motion is, ironically, the result of tremendous effort by Jaguar engineers.

The X-TYPE spent countless hours on the test track to fine-tune its ability to move with confidence and poise. Put yourself in a situation that calls for the X-TYPE to move with straightforward authority, and it will respond with the reassuring power of its six-cylinder engine.

Ask an X-TYPE to move through a sequence of corners on a winding stretch of open road, and it will reward you with precise feedback from its steering, braking and suspension systems. It moves as you insist a Jaguar should, with swift reflexes and a clarity of purpose. Instantly, its movements become yours.

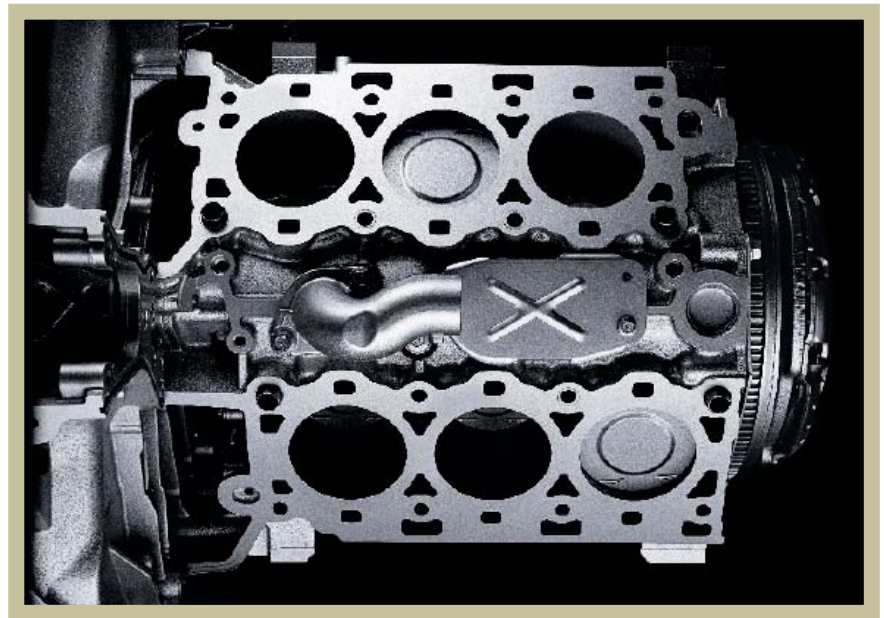

# PERFORMANCE

A Jaguar is by its nature a performance machine. And since its inception, Jaguar's formula for delivering performance has remained constant: Balance the use of lightweight materials with precision engineering to create cars that drive, in the words of Jaguar founder Sir William Lyons, "as if they were alive."

All 2006 X-TYPE models are powered by a 3.0-liter V6 engine that offers the weight-saving benefits of an aluminum block and heads, magnesium cylinder head covers, and an advanced double-overhead-cam, four valve-per-cylinder design. To help deliver power at your command across the rpm range, the timing of the intake valve varies continuously, so the X-TYPE V6 breathes with total precision. The result is that, no matter what speed the engine is turning—low rpm, mid rpm or high rpm—it is producing robust power and torque.

The X-TYPE 3.0 output is 227 horsepower @ 6800 rpm and 206 lb.-ft. of torque @ 3000 rpm. And this is power you can rely on: The manufacturing facility in Liverpool, England, where the X-TYPE is built, is state-of-the-art. From an on-site laboratory that tests incoming components to a five-mile (8-km) road test of finished, randomly chosen X-TYPE's, the assembly is monitored to ensure that the quality of the final product benefits from the precise application of a statistical improvement process. The X-TYPE rates as an Ultra Low Emissions Vehicle (ULEV).

It reduces emissions of hydrocarbons by 85 percent, and cuts carbon monoxide by half compared to many passenger cars.

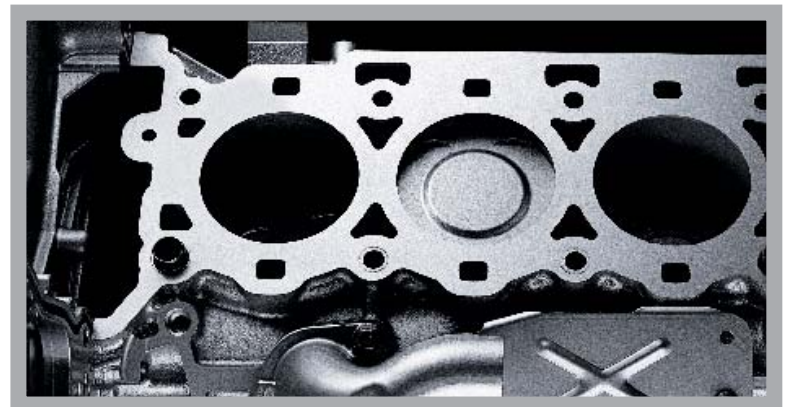

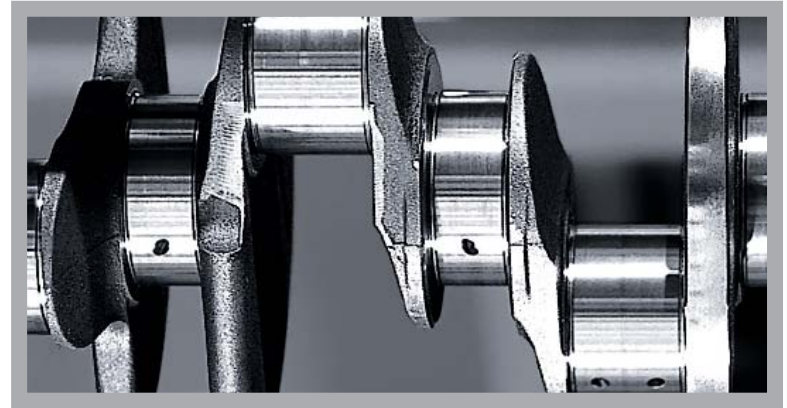

# ENGINEERING

Toward the end of this brochure you will find a list of technical features that affirms the engineering credibility of the X-TYPE. But what this list does not reveal is the extent to which those features were refined and tested before being deemed worthy of a Jaguar. The standards are high: Only precision tolerances and exacting weights are accepted for the engine's core components: its crankshaft, connecting rods and pistons. While these are the elements of any automobile, in an X-TYPE, they are calibrated to achieve remarkable strength, stamina and smoothness.

You can feel the effects of this disciplined engineering every time you press your foot down on the throttle: With firm and swift authority, the X-TYPE accelerates forward. You can hear the pleasant effects, too. The perfect pitch of the X-TYPE's exhaust note was achieved in a special acoustic chamber, where Jaguar engineers calibrated the sonic properties of the car, placing sensitive microphones around the X-TYPE to record engine sounds, and other measuring devices to gauge vibrations.

One engineering feature that helps dampen vibration is the suspension mounts. Rather than the conventional solid rubber mounts, the X-TYPE uses mounts filled with liquid to help isolate the driver and other occupants of the X-TYPE passenger compartment from road noise and vibration. The result is an automobile that exudes poise and composure. And while you won't find the words "poise" and "composure" listed in the specifications, isn't that what you really want from a Jaguar?

## CRAFTSMANSHIP

For as long as there have been Jaguar cars, there has been Jaguar craftsmanship. Performed by individuals skilled in the art of coach-building, Jaguar craftsmanship remains a distinctive characteristic of the X-TYPE. It is a point of pride for both its creators and those who appreciate attention to detail.

But this process is no relic of another age. At Halewood, Jaguar's award-winning factory in England, timeless craftsmanship and laser guided assembly systems not only coexist—they work in harmony to create an automobile of superb quality. Examine the inside of an X-TYPE and you will notice things that have been part of Jaguar for decades: the beautifully formed trim, the precisely tailored leather upholstery of the seating surfaces and the large, round instrumentation.

Yet the painstaking act of crafting a Jaguar is now as much exact science as it is art. The Bronze Sapele wood that's standard on the X-TYPE and the traditional Burl Walnut fitted to the VDP Edition<sup>1</sup> are now accompanied by carbon fiber, a material found on the most advanced racing machines and on the X-TYPE Sport.<sup>2</sup> And as a result of numerous innovations in design

and manufacturing technology, Jaguar build-quality has continuously risen to standards of excellence found only among the world's most accomplished carmakers. This is beauty that lasts: Beneath all the Jaguar craftsmanship lies a steel monocoque body protected against corrosion by a double-sided zinc coating that covers 81 percent of the X-TYPE's body structure.

<sup>1</sup> VDP Edition not available in Canada. <sup>2</sup> X-TYPE Sport Edition for Canada includes content not listed in this brochure. See your Canadian Jaguar Dealer for details.

## X-TYPE SPORT

Within every X-TYPE resides the spirit of the legendary Jaguar sports cars. The X-TYPE Sport celebrates this legacy with design details inspired by Jaguar's racing cars, such as the modified XKR that is the current Champion of the Sports Car Club of America Trans-Am Series.

Outside, the X-TYPE Sport features upper and lower mesh grilles, Xenon headlamps, and an aerodynamic spoiler and side skirts. Inside, the interior is trimmed with carbon fiber and Alcantara® inserts.<sup>1</sup>

Its unique character becomes even more evident when you grip the leather steering wheel, turn up your favorite music on the available 320-watt, 10-speaker Alpine® Premium Sound system and head for a winding stretch of road.

You are now fully prepared to revel in the response of its sport-tuned suspension, and the confident handling backed by optional Dynamic Stability Control (DSC) with Traction Control (TC) and Emergency Brake Assist (EBA).

<sup>1</sup>Alcantara® and Carbon Fiber inserts are not available in Canada

## TECHNOLOGY

To provide for the conflicting demands of driving, Jaguar was the first production car to offer voice activation. Now it adds *Bluetooth*® wireless technology. Available as an accessory and factory-fit option on all X-TYPE models, *Bluetooth* technology lets you connect your X-TYPE to your Jaguar-approved *Bluetooth*-capable phone.

Once connected, your cell phone's contact list and other details can be transferred via *Bluetooth* wireless technology<sup>1</sup> to your X-TYPE, so you can speed-dial from your list of contacts using the X-TYPE's radio keypad. Even if your phone is in a pocket, purse or briefcase, your incoming calls are routed through the car's audio system, with a built-in microphone for hands-free operation. JaguarVoice<sup>2</sup> provides the X-TYPE driver with access to voice-activated control of the audio, climate control, phone and optional navigation systems- by speaking simple voice commands.

The X-TYPE is available with Reverse Park Control (RPC),<sup>3</sup> a feature that uses ultrasonic sensors embedded in the rear bumper to help ease the task of backing into parking spaces and out of driveways. As you approach an obstacle when backing up, a warning sound emitted with increasing frequency helps you gauge the closing distance between your bumper and the obstacle. The X-TYPE is also available with Jaguar's multi-function Satellite Navigation System. DVD-based, the system serves up street maps in an instant, helping you see where you are going and how to get there.

<sup>1</sup> Feature may not be available on all phones. Please consult with local dealer. <sup>2</sup> Dealer-fit accessory. <sup>3</sup> Standard on Sport Edition and Luxury Edition in Canada.

# VDP EDITION

**A TRADITION UPHELD** While every 2006 X-TYPE sedan is an automobile of exceptional comfort, elegant style and stirring performance, there is one remarkable example of the X-TYPE sedan that is truly a breed apart: the 2006 VDP Edition. The VDP Edition may be relatively new to the X-TYPE line, but the idea is not. The creation of ultra-luxurious Jaguar sedans is a revered tradition, intended to meet the lofty expectations of owners who place a premium on having only the most lavish appointments available.

Elements of this unique heritage are to be found throughout the exterior and interior of the VDP Edition. The X-TYPE sedan's exterior has been given new design accents, including its distinctive, 12-spoke, 17" Belize cast alloy wheels. Look inside and you will see much more. The driver seat and front passenger seat of the VDP Edition are 10-way adjustable, helping ensure you find the ideal seating position. And the seats of the VDP Edition are not trimmed in the standard fashion. Instead, contrasting seat-piping lines the contours of each seat cushion and head restraint, another touch evocative of the most elegant Jaguar craftsmanship. Burl Walnut, among the most eye-pleasing wood veneers, brings a deeper measure of richness to the VDP Edition, gracing the length of its instrument panel, leather and wood steering wheel, center console, door trim and the gearshift knob. In brief, the VDP Edition elevates the 2006 Jaguar X-TYPE to a new level of automotive excellence.

# THE JAGUAR OF WAGONS

Throughout its history, Jaguar has made some of the world's most remarkable sports cars and luxury sedans. But until recently, it had never designed an automobile quite like the 2006 X-TYPE Sportwagon. At last, there is a way to combine Jaguar luxury and Jaguar performance with the practicality and security of an all-wheel-drive wagon. The first production wagon ever made by Jaguar, it has been worth the wait. The attention to detail is evident throughout its design.

The X-TYPE Sportwagon gets its versatility from a cargo area that measures a full 50 cubic feet (1415 L) with its 70/30-split rear seats folded down. The space is fully optimized, with very little room taken up by the intrusion of the rear wheel wells, which means you can use the X-TYPE Sportwagon to accommodate the various aspects of your lifestyle. Bright metal scuff strips run across the edge of the cargo floor, and thick, durable carpet covers the cargo surfaces.

Most importantly—the 2006 X-TYPE Sportwagon fulfills your expectations of Jaguar comfort, Jaguar character and Jaguar confidence. Like its X-TYPE sedan counterparts, the X-TYPE Sportwagon gets its powerful acceleration from a smooth, muscular 3.0L V6 engine. And the Sportwagon gets its handling precision from the Jaguar Traction 4 all-wheel-drive system, making it a compelling alternative to ordinary SUVs. When your adventures take you places where snow-covered roads are the norm, the X-TYPE Sportwagon takes you there in style and security.

## WIPERS THAT SENSE RAIN

Available rain-sensing wipers help clear your view automatically. A sensor detects rain, snow or sleet levels and adjusts wiper speed.

## KEYS THAT GUARD

The keys to an X-TYPE do more than just open the doors and start its engine. They are part of a security system that includes a coded ignition and a perimeter alarm. Your X-TYPE is on guard to help foil anyone attempting theft of items in the car, and anyone attempting theft of the car itself.

## DOORS THAT LOCK THEMSELVES

Here's one less thing to worry about: The X-TYPE's doors and the trunk lid automatically lock when you drive away. You simply drive off, knowing that you and your passengers are secured.

## SPORTING ATTITUDE

Celebrate your passion for performance with the X-TYPE Sport. From its upper and lower bright mesh grille,<sup>1</sup> trunk-mounted rear spoiler to its Xenon headlamps, Alcantara®<sup>2</sup> and carbon fiber-trimmed interior, and 17" Aguila wheels,<sup>3</sup> the 2006 X-TYPE Sport isn't shy about revealing its aggressive good looks.

## A REAR SEAT THAT FOLDS

The X-TYPE is available with rear seating that split-folds 70/30,<sup>4</sup> allowing you to carry oversized items and have a sizable rear seat available for transporting a passenger.

<sup>1</sup> X-TYPE Sport Edition in Canada comes standard with black mesh grille. <sup>2</sup> Alcantara inserts not available in Canada. <sup>3</sup> 18" Aruba wheels are standard on Sport Edition in Canada. <sup>4</sup> Available with optional Moonroof Package. Standard on the Sportwagon. Standard on Sport Edition and Luxury Edition in Canada.

### TOUCHES THAT ACCOMMODATE

The rear seating is separated by a center armrest that opens to reveal dual cupholders. Those seated up front aren't slighted: They get dual cupholders, too.

### CONTROLS WITHIN REACH

Steering-wheel-mounted controls let you set the X-TYPE's cruise speed, adjust the stereo volume and answer calls to *Bluetooth*®- compatible cell phones.<sup>1</sup>

### SPEAKERS THAT SURROUND

Thanks to the available 320-watt Alpine® Premium Sound system,<sup>2</sup> audiophile-level sound quality can be yours in the X-TYPE. This technologically advanced system places 10 speakers throughout the passenger cabin of the X-TYPE, in precise locations to ensure the most faithful, most rewarding sound reproduction possible.

### SEATS THAT REMEMBER

A 10-way power-adjustable driver seat with memory feature<sup>2</sup> is available as part of the optional Premium Package. It recalls three individual seat positions and side-mirror angles. Standard leather-trimmed seating surfaces come in a choice of colors: Charcoal, Stone, Ivory and Champagne.

### A SLIDE THAT'S SAFE

A power tilt-and-slide glass moonroof<sup>3</sup> is available on the X-TYPE. One-touch activation provides easy operation, and an anti-trap function serves as a safety feature.

<sup>1</sup> *Bluetooth* is available as a dealer-fit accessory as well as a factory-fit option. Feature may not be available with all phones. Please see your Jaguar Dealer for details. <sup>2</sup> Standard on Sport Edition and Luxury Edition in Canada and Standard on VDP Edition in US. <sup>3</sup> Standard on Sportwagon in US. Standard on Sportwagon and Luxury Edition in Canada.

# THE JAGUAR EXPERIENCE

## JAGUAR WARRANTY

This comprehensive 4-year or 50,000-mile (80,000-km) New-Vehicle Limited Warranty<sup>1</sup> includes corrosion coverage for 6 years/ unlimited mileage, and parts and service adjustments for 1 year or 12,500 miles (20,000 km).

## JAGUAR ASSISTANCE

Available 24 hours a day, 7 days a week, to all Jaguar owners to provide you with towing service, jump starts, lockout assistance, gasoline delivery, tire changes and our complimentary triprouting service. For Jaguar Assistance, please call 1-800-4-JAGUAR.

## JAGUAR SERVICE

Complimentary maintenance further enhances your Jaguar driving experience. Simply bring your Jaguar to an authorized Jaguar Dealer, and required maintenance will be performed at no charge throughout your first year of ownership or 12,000 miles, whichever comes first. See vehicle's scheduled maintenance program for details.

## JAGUAR CLUBS

With over 60 affiliated chapters and 6,000 members across the U.S., Canada and Mexico, Jaguar Clubs represent the nerve center for Jaguar enthusiasts. Members can participate in breathtaking driving tours and exclusive social events. For the race-inspired, competitive drive events are also available. To join a club in your area, visit [jcna.com](http://jcna.com) or call 1-888-CLUBJAG.

## MYJAGUAR.COM

Exclusive for Jaguar owners.<sup>1</sup> At [myjaguar.com](http://myjaguar.com), owners can peruse owner guides and handbooks, review warranty information, access Jaguar news, take advantage of private offers, receive courtesy reminders for upcoming complimentary scheduled maintenance and much more. To register, owners are invited to visit [myjaguar.com](http://myjaguar.com).

## JAGUAR MAGAZINE

Throughout the year, Jaguar owners receive a subscription to this elegant publication that includes coverage of the people, places and cars that make up the world of jaguar.

## JAGUAR AFFILIATIONS

**Hertz #1 Club Gold<sup>®</sup>**

Complimentary membership with Hertz #1 Club Gold.®

Complimentary membership in British Airways Executive<sup>1</sup>

## JAGUAR CREDIT

Acquiring a new Jaguar is easier than you may think. Whether you're leasing or financing, let Jaguar Credit, known throughout the industry for its customer satisfaction and quality service, help put you behind the wheel of a legendary Jaguar. They offer leasing and financing designed to suit all your vehicle financing needs. For more details, contact your local authorized Jaguar Dealer, or log on to [jaguarcredit.com](http://jaguarcredit.com).

<sup>1</sup> Please see dealer for complete details. For Canadian details, please contact your Canadian Dealer. <sup>2</sup> All elements of Jaguar Assistance are available only while your Jaguar Warranty is in effect. <sup>3</sup> This is subject to change; please visit [myjaguar.com](http://myjaguar.com) for the latest information.

# ALPINE® PREMIUM SOUND

The level of engineering precision found throughout the X-TYPE does not falter when you turn on the audio system. The sound system available on the X-TYPE is a showpiece of state-of-the-art audio technology. Designed in conjunction with Alpine, a world leader in the development of advanced car audio, the X-TYPE's 10-speaker, 320-watt sound system brings you the performance benefits of digital technology.

The Alpine amplifier uses Digital Signal Processing (DSP) to ensure sound is recreated exactly as the recording artists intended: EQ settings let you make adjustments to ensure that, no matter where occupants are seated, they are experiencing faithful sound. DSP also creates exact crossover points, optimizing signals for individual speakers, and modifies the signal using a 4-band parametric equalizer to help compensate for the X-TYPE's own acoustic characteristics. And Alpine's DDDrive™ integrates over 40 worldwide patents to radically improve speaker design.

DDDrive's lighter magnets mean more magnetic force— up to 80 percent— is used, achieving actual acoustic reproduction, so that the full spectrum of sound can be savored. Mid- to high range sounds are reproduced with smoothness and clarity. The distortion is minimal. Meanwhile, large subwoofers create deep, tight bass response. The result is music that sounds exactly as you would expect it to sound in a Jaguar: totally alive.
